FAIRFIELD SEED FARM

RANDOLPH, WIS.

Instructions About Ordering. Kindly use the order sneet enclosed with each catalog. this will greatly facilitate the filling of your order. Write plainly and you will be sure to have your order filled promptly and correctly. Be sure to sign your name and full address on every order and keep a copy of same. If your express office or freight depot has a different name from your postoffice, give that also. This is important, as we cannot forward goods if we do not know where to send them.

Remitting Money.

Cash should always accompany the order. Bank Remittances may be sent by Money Order, Bank When money is sent by any of the above methods the cost of remitting may be selected in extra seeds. Remittances sent in any other way are entirely at the senders risk. Clean Postage Stamps will be accepted the same ascash are entirely at the senders risk. Clean Postage Stamps will be accepted the same for small amounts. Parcels Post Stamps will not be accepted as payment for seeds.

Free Delivery. We deliver free to any Express or Post Office in the Onacket, ounce, quarter-pound, pound, half-pint, pint and quart. On seeds in larger quantities purchasers must pay the Freight or Express charges.

cents worth of seeds free is allowed for each \$1.00 sent for seeds in packets and ounces. This premium must be selected in packets and ounces and **positively does not apply on orders for half-pints, pints, quarts, quarter-pounds, pounds, farm seeds, potatoes, special offers or collections.**

Warranty . While we use every effort possible in the selection of our seeds, and feel justified in saying that our seeds are as pure as the best, but at the same time, there are causes that are beyond the control of man that spoil the best seeds and cause poor crops, that it is impossible to guarantee seeds. Therefore, while we exerise great care to have all seeds pure and reliable, we sell no seeds with warranty, expressed or implied, further than the amount actually paid for such seeds as prove unsatisfactory, should there be just cause for complaint.

It must, however, be plant to everyone who gives the matter the slightest thought, that it is to our best interests to send out only such stock as will not only grow but also prove true to a me and description.

name and description.

Safe Arrival of Packages. We endeavor to secure the safe arrival of packages of Seeds and be in good condition in every case. It a package is injured or lost, by Mail or Express, will replace it as soon as notified of the fact. Frequently it happens that orders never Bulbs in good condition in every case. It a pa we will replace it as soon as notified of the fact. When customers fail to receive their packreach us, or are without a signature or address. ages within a reasonable time, they should inform us, and at the same time send a copy of their order and any other information necessary to trace the goods.

Order Early. It will greatly facilitate shipments if orders are sent early. We aim to send off all orders the same or next day after they are received, but during the busy season this is impossible—hence the advisability of order-

The attention of our customers is called to the above instructions, which will, if followed, be an aid to the purchaser as well as to ourselves.

SEED DRYING HOUSE AT FAIRFIELD FARM
Randolph, Wis., Jan. 1, 1913.

To Our Friends, Our Customers:-

In issuing this, our catalog for 1913, we wish to thank our many customers for the kind orders with which they have favored us the past season. Those who have not dealt with us before will find our catalog different from many others as it is not filled with overdrawn illustrations or dishonest descriptions.

We Believe In Telling The Truth.

In no other business transaction does a person place as much confidence in the party with whom they are dealing as in the buying of seeds, and when you entrust us with your orders you may rest assured that you are getting the best seeds it is possible to produce. The best proof we can give that our seeds are giving satisfaction is the fact that OUR BUSINESS IS MORE THAN DOUBLING EACH YEAR.

We are satisfied with a reasonable profit, our aim is to supply the Best Seeds at a Reasonable Price.

At our Fairfield Seed Farm we grow a larger percentage of the seeds we retail than any other seedsmen in America, here we employ the very best methods in improving, testing and growing seeds.

Our greatest pleasure and best advertisement is a satisfied customer and we always do our very best to please.

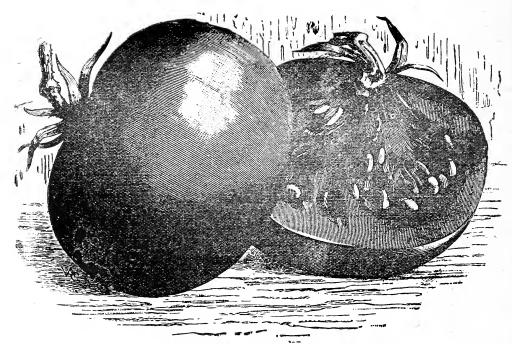

Trusting to be favored with your orders which shall have our prompt and careful attention.

Cordially yours,

J. W. Jung Seed Co.

Success with Vegetables and Flowers

is the title of a little booklet we have printed for your benefit. It contains full cultural instructions on growing vegetables and flowers and will be sent free with orders if asked for.

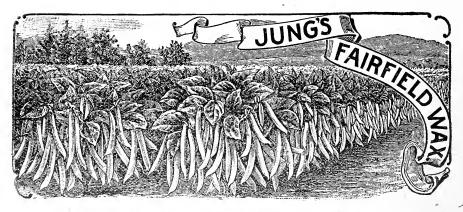

Jung's Fairfield First TOMATO.

THE SMOOTHEST AND FINEST FLAVORED EXTRA EARLY TOMATO.

The one great fault with other extra early tomatoes is that they do not have sufficient foliage, and as a result the fruits will sunburn which greatly detracts from their appearance and quality. Fairfield First is tully as early as any other variety and in addition is abundantly supplied with foliage which protects the fruits from the sun and preserves its fine appearance and quality. This variety has been carefully bred for extreme earliness, productiveness, and smoothness of fruit. Fruits are of good size, smooth, and borne in clusters. It is a very heavy cropper. Although one of the first to ripen, the vines continue to bear until frest; the size and smoothness of the fruits is maintained until the end of the season.

The color is an intense velvety scarlet, fruits are almost globe shaped making it a splendid variety for slicing. The fruit is remarkably solid and firm: flesh is thick and heavy, of fine flavor, and contains but few seeds. Vines are strong and healthy growers. Pkt. 10 cts.: oz. 40 cts.; \(\frac{1}{2}\) lb. \(\frac{1}{2}\) 10.

Jung's Fairfield Wonder Wax.

WITHOUT A DOUBT THE FINEST WAX OR BUTTER BEAN.

It is with much pleasure that we

offer our customers this grand new Butter Bean as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are nusually vigorous and free from disease. They grow from 15 to 20 inches high, have very large foliage and bear an immense load of pods which are from 6 to 9 inches long, ½ inch broad, very fleshy and have absolutely no strings. The color is a rich lemon yellow. If you want the very best Butter Beans of them all then try JUNG'S FAIR-FIELD WONDER WAX. Pkt. 10 cts.; ½ pt. 25 cts. Not more than ½ pint to a customer.

Jungs UNRIVALED

GARDEN SEEDS.

lh the following list you will find only such varieties as have been thoroughly tested and found to be of special merit. All of our seeds were grown from the finest select stocks and for quality and productiveness are unexcelled by any others. WE HANDLE ONLY THE VERY BEST SEEDS and QUALITY rather than price is our first aim.

Asparagus.

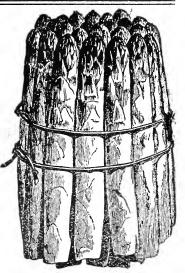

Barr's Mammoth.

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. We offer troots. Price of seed: Pkt. 5 cts.; oz., 10 cts.; 1 lb. 25 cts. year old roots, 25 cts., per dozen, postpaid. By freight We offer both seed and By freight or express: 80 cts. per 100.

Jung's Unrivaled Bush Beans.

Our Seed Beans are extre fine! They were grown on the Fairfield Seed Farm, were thoroughly rogued, hand picked and are worth much more than the less carefully selected strains as are usually sold.

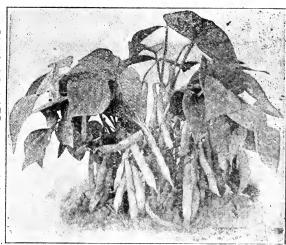

Burpee's White Wax.

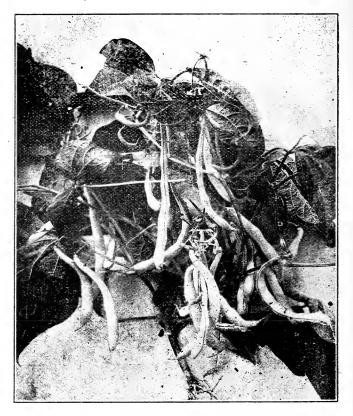

A large white seeded Butter Bean with handsome yellow pods which are absolutely The plants make strong robust bushes 15 inches high, with strong branches, which hold the pods well up from the ground and insures them from rusting. The pods are produced in great profusion, measuring from 5 to 6 inches in length, ½ inch broad and are very meaty when ready for table use. They are always of fine flavor and attractive appearance served in any way. It is a purpose variety of superior merit. cts.; ½ pt. 20 cts.; pt. 30 cts.; qt. 45 cts.

Profusion Wax.

The leaves of this bean distinguish themselves from other varieties by their beautiful willowy shape. It is very hardy, having withstood frosts which seriously checked other varieties. The bushes are literally covered with the fine transparent yellow pods which are from four to five inches long, remarkably brittle, as it has no strings whatever. It is sure to make a reputation for itself either in the home or market garden. Pkt. 5 ct pt. 15 cts.; pt. 25 cts.; qt. 40 cts., postpaid.

BURFEE'S WHITE WAX

NEW KIDNEY WAX

New Kidney Wax. Without any exceptions the finest flat-podded Wax Bush Bean in cultivation.

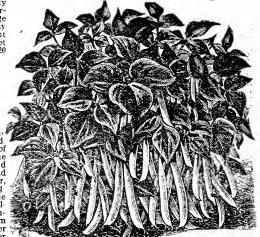

A great improvement on Wardwell's Kidney Wax, being more robust and prolific, and having longer pods which are much handsomer and of finer quality. The plants are of erect bush habit, reaching eighteen to twenty inches in height. Their thick foliage is free from blight, while the pods are free from rust. The fleshy pods are flattened in form, six to seven it ches long, one half inch broad, and three-eights of an inch thick; the color is a rich lemon yellow. The pods are remarkable for their meatiness, fine flavor and absolute freedom from strings. The pods hang in rich clusters from the vines, making picking quite easy. Plants of this variety

easy. Plants of this variety have been grown on our Fairfield Farm bearing forty large pods each. It is without any doubt the best variety to plant for either the home or market garden. Pkt. 10 cts.; ½ pt. 20 cts.: pt. 30 cts.; qt. 50 cts.

Pencil Pod Black Wax.

We consider this one of the best Wax Beans yet introduced. It is very productive, and of most excellent flavor. The pods are long, straight, and round like a pencil, fleshy and of a bright yellow color, tender, brittle are of true.

bush growth, fifteen inches high, with abundant foliage. The magnificent pods are from five to seven inches long. The ample foliage shelters the pods from the hot sun which renders them exceptionally tender and brittle. This is one of the best wax pod beans for the home garden. Pkt. 5 cts.; 2 pt 15 cts.; pt. 25 cts.; qt. 45 cts., postpaid.

PENCIL POD BLACK WAX

Currie's Rust Proof Golden Wax.

One of the earliest and most prolific wax bush beans. The bush es are strong vig-orous growers and bear an immense load of long, flat, meaty pods which are of the most handsome apprarance. Not only does this variety posessthe merit of being rust-proof but it is also extra early.

also extra early.

The pods are exceedingly crisp and tender and of most delicious flavor. The handsome yellow pods are five to six inches long and of oval shape.

Vines are vigorous and productive, and is the hardiest of all Wax sorts Pkt. 5 c.; ½ pt. 15 c.; pt. 25 c.; qt. 40 cts.

CUKKIE'S RUSI-PACUE WAX

Brittle Wax BUSH BEAN.

The earliest of all Wax Beans. Of such excellent quality it might well be termed "best of all." The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long straight round and very solid pods from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snap-shorts, while having white seeds showing only a small black dot at the eye, any pods allowed to ripen will be readily saleable as winter shell beans. Include this great bean in your order. See, 10 cts.; 2 pt. 20 cts.; pt. 30 cts.; qt. 50 cts., postpaid.

Stringless Green Pod.

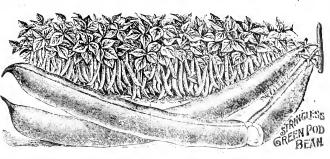

This variety combiness the following essential points; extreme earliness, being the first to produce pods, unusual hardiness and great productiveness. The pods are from five to six inches long; very round, of a rich green color and entirely stringless even when matured. They are tender, brittle and of the finest flavor. It is without any exceptions the finest green podded bean in cultivation. Pkt. 5 cts.; \(\frac{1}{2} \) pt. 15 cts.; pt. 25 cts.; qt. 50 cts.

Brittle WAX
Brussel Sprouts.

LONG ISLAND IMPROVED.

The "sprouts" resemble small cabbages growing closely on the stalk of plant. They are palatable and nutritious. Long Island grown.

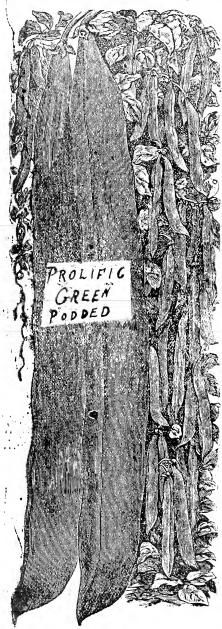

Pkt. 5 cts.; oz. 25 cts.

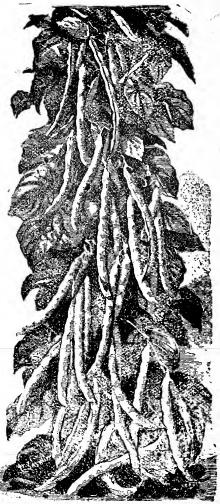

Prolific Green-Podded POLE BEAN.

The best green-podded pole bean in cultivation. It is earlier than most other varieties and covers a longer season of productiveness. The vines are vigorous growers, being of productiveness. The vines are vigorous growers, being loaded with pods from summer until frost. It is a very sure cropper, even in unfavorable seasons producing large crops.

The pods, borne in clusters, average 6 to 8 inches in length, are uniformly straight, of a dark rich green color, and very meaty. Pods are entirely stringless, very tender and sweet, and of mild flavor. Pkt. 5 cts.; ½ pt. 15 cts.; pt. 25 c.; qt. 43 c.

KENTUCKY WONDER WAX Kentucky Wonder Wax POLE BEAN.

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with almost a solid mass of pods from bottom to top. The pods are very large, being from 8 to ten inches long, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery in flavor. Pkt. 10 cts.; § pt. 20 cts.; pt. 30 cts.; qt. 50 cts., postpaid.

FIELD BEAN. Improved Prolific Tree.

It is a sure cropper, and not only more prolific than the common white bean, but also of better quality. Vines are large, spreading, with small thin leaves, and occasional runners. The plants grow upright and bear the pods well up from the ground, thus keeping them away from the soil and making them more easily gathered. Beans are pure white and of small size. Pkt. 5 cts.; pt. 25 cts.; qt. 40 cts.

Wonder Bush Lima Bean.

We have grown this strain for five years and can truthfully say that it is the very best "Bush Lima Bean."

It is a great improvement on Burpee's Bush Lima. While

It is a great improvement on Burpee's Bush Lima. While the bushes are fully as productive, the pods are borne more at the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow eighteen to twenty inches high, requiring no poles or stakes whatever. The pods are of truly mammoth size and contain from three to four large beans each. They are very tender and delicious in flavor. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 10 cts.; ½ pt. 20 cts.; pt. 30 cts.; qt. 50 cts., postpaid.

POLE LIMA BEAN.

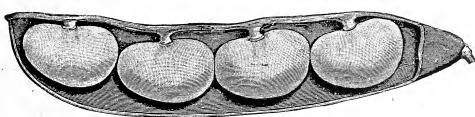

Henderson's Early Leviathan.

This is the earliest. Not only will it give large lima beans earlier taan any other strain, but it is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles, and is a sure cropper. The pods differ from those of other early pole limas in being straighter and longer.

The pods hang from the foliage in large clusters and contain three to four and sometimes five beans to a pod. It bears until frost, and a small patch will supply a family.

Pkt. 10 cts.; ½ pt. 20 cts.; pt. 30 cts.; qt. 50 cts.

HENDERSON'S EARLY LEVIATHAN

BORECOLE, or KALE.

DWARF GERMAN. Useful for furnishing greens for boiling during the early fall, winter, and spring months.

The leaves are very curly, bright green, tender, and te in flavor. The plants are hardy and the quality proved by freezing. Pkt. 5 cts.; oz. 10 cts. delicate in flavor. is improved by freezing.

Garden Beets.

Our packets of Beets each contain 1-4 ounce of seed.

This splendid variety Early Model. has attained perfection for table use. It is extremely early, of perfect globe shape and finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich called and desirable shape.

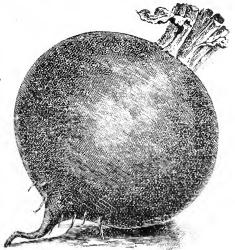

The roots of Early Model are called and desirable shape. of good size and run uniformly perfect, almost round, with small dark crimson colored leaves and a slim tap root.

It makes a rapid growth and matures very early. quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small and sweet, never woody of streets and sweet, never woody of streets.

It retains its under quality and freedom from woodiness until the beets have part their full size.

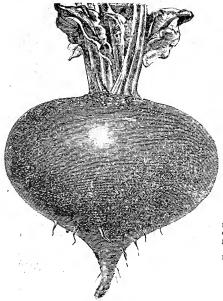

Pkt. 5 cts.; oz. 10 cts.; ‡ lb. 35 cts., postpaid.

. .

EARLY MODEL

Plant JUNG QUALITY Seed And Be Prosperous.

Improved Blood Turnip Beet.

This is an improved strain of the popular Blood Turnip.

It is very early, of perfect globe shape and free from side roots. The flesh is a deep red color, fine grained, sweet, and of a dark color when cooked. Tops are small and of uniform growth, the leaves, stems, and venings being a dark red.

It grows quickly and is of fine quality. Excellent for summer, fall or winter use.

Pkt. 5 cts.; oz. 10 cts.; 2 lb. 30 cts.

Columbia.

An excellent early variety for all purposes. COLUMBIA always smooth, from four to five inches in diameter, and of a The flesh is a deep red color and of fine quality, remaining tender until the roots have reached foliage is small and of a rich bronze color.

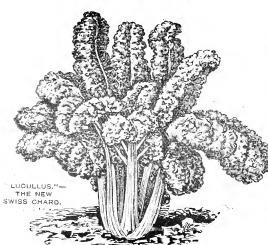

The roots can be used early in the season, when being ready for use soon after the Extra Early sorts and is of finer quality.

Pkt. 5 cts.; oz. neat turnip shape. The flesh is a deep red color and of fine quality, remaining tender until the their full size. The foliage is small and of a rich bronze color. The roots can be used early i only partially grown, being ready for use soon after the Extra Early sorts and is of finer quality. 10 cts.; \(\frac{1}{2} \) 1b. 30 cts., postpaid.

Mangels.

The best mangel for deep soil; Mammoth Long Red. ive and of superior quality. Specimens of this variety have been produced weighing 50 pounds. Oz. 5 cts.; † lb. 20 cts.; lb. 50 cts., postpaid.

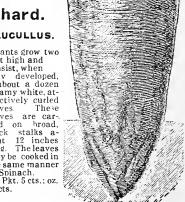

Golden Tankard. A smooth yellow fleshed mangel; the roots are of large diameter, tapering quickly at the bottom, which is quite broad with only a small tap-root. It grows largely above the soil and is easily harvested. It yields an enormous bulk on good soil, and can be closely grown in rows. No root crop is a better paying invest-Oz. 5 cts.; ¼ lb. 20 cts.; lb. 50 cts. ment for farmers to grow than Mangels

Swiss Chard. LUCULLUS.

Plants grow two feet high and consist, when fully developed, of about a dozen creamy white, at-tractively curled leaves These leaves are carried on broad, thick stalks a-bout 12 inches long. The leaves may be cooked in the same manner as.Spinach.

10 cts.

MAMMOTH LONG-RED

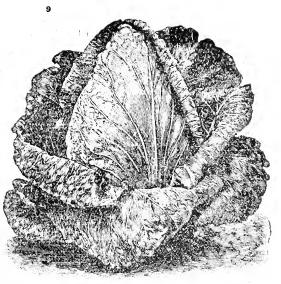

Cabbage.

The Cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain seed enough to produce 500 plants.

Extra Early Express.

POSITIVELY THE EARLIEST CABBAGE ON EARTH.

It produces heads of good size a week to ten days earlier than Jersey Wakefield. There are few loose leaves, and almost every plant forms a head of good size and fine quality. It can be planted close, and yields a large crop. A fine variety for shipping as the heads remain solid for a long time. It is a beautiful cabbage in appearance, being handsome in color and general uniformity. Also called "Lightning" and other fancy names by some seedsmen. Pat. 5 cts.; oz. 20 cts.; \$\frac{1}{2}\$ lb. 60 cts., postpaid.

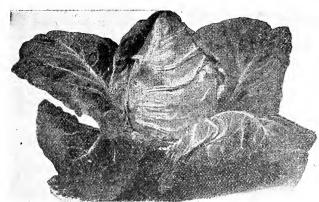

EXTRA EARLY EXPRESS

Early Jersey Wakefield.

JUNG S SPECIAL STOCK.

The standard pointed-headed early cabbage throughout the U.S. The heads are uniformly hard and solid. They are pyramidal in form generally pointed at the end, with but few outside leaves. The outside leaves are unusually thick and heavy, and it is thereby enabled to stand more cold weather without injury when carried through the winter. Baving but few outside leaves it may be planted close, so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing.

Pkt. 5 cts.; oz. 20 cts.; 4 lb. 60 cts

EARLY JERSEY WAKEFIELD

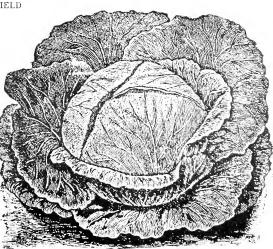

All Head Early.

This variety has proved itself to be adaptable to a wide range of both soil and climate, and is well worthy of recognition as a standard American sort. It is the earliest of all large Cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Guality and tenderness are marked features.

It is suitable for growth in spring and early summer, or for use as a winter sort. The hard heads grow so free from spreading leaves that fully one thousand more heads than usual with large cabbage can be frown to the acre. Seed sown in July, and plants set in August, will produce good heads for wintering. It is a money maker for gardeners. Pkt. 5 cts. oz. 20 cts.; † lb. 60 cts., postpaid.

NOTICE.

PARCELS POST STAMPS will not be accepted as payment for seeds as seeds do not come within the provisions of the Parcels Post Bill.

ALL HEAD EARLY

Copenhagen Market.

An extreme-early Cabbage of unusual merit. It matures as early as Wakefield and will give a much heavier yield per acre than that popular variety. The plant is short-stemmed, the heads being produced almost on the ground level.

The leaves are light green, lather small, saucer-shaped, and always tightly folded. The splendid solid heads weigh as much as eight pounds each, are of exceptional fine flavor, and show no signs of cracking. The type is thoroughly fixed, the heads maturing all at the same time, this is a great consideration to Market Gardeners, entailing less labor in harvesting the crop and allows the ground to be cleared at the first cutting. This cabbage has come to stay and will surely please everyone who tries it. Pkt. 10 cts.; oz. 50 cts.; ½ lb. \$1.75.

Short Stem Drumhead.

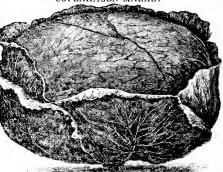

This variety is uniform in heading, and dwarf in growth. The heads appear to rest on the surface of the soil. It grows with little outer foliage, the leaves all folding in closely about the head which is very solid. It is a standard sort about the head which is very solid. It is a standard sort for winter keeping and sells readily in the winter and spring markets. With good cultivation heads attain a weight of 20 to 30 pounds and are of the finest quality. Pkt. 5 cts.; oz. 15cts.; 1 lb. 60 cts., postpaid.

Danish Roundhead.

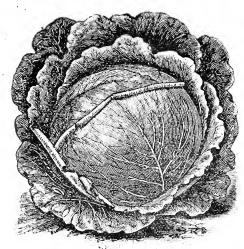

An earlier shorter stemmed type of the famous Danish Ballhead It is slightly larger than Danish Ballhead and produces more weight per acre. The foliage is lighter in color; the handsome hard heads are beautifully white when trimmed. The heads are produced about two weeks earlier and while perfectly round in form are not so deep through. It is shorter stemmed than even are not so deep through. It is shorter stemmed than even the Short-Stemmed Ballhead which is sometimes sold as Danish Roundhead. The magnificent hard heads are splendid keepers and always bring the highest prices on market.

Pkt. 10 cts.; oz. 20 cts.; ½ lb 50 cts., postpaid.

SHORT STEM DRUMHEAD

DANISH BALLHEAD, -from a Photograph.

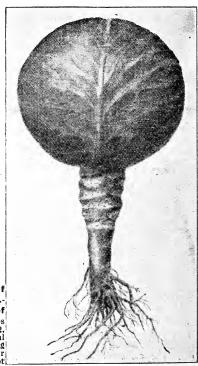

Danish Ballhead.

CRAND HARD HEADED CABBAGE.

This type of winter Cabbage has become very popular of late years on account of its UNEQUALED KEEPING QUAL-ITIES as well as for the great SOLIDITY and WEIGHT of

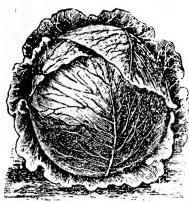

the heads. It is strong and vigorous in growth, and produces large, round, compact heads, exceedingly hard and solid weighing, when trimmed, fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc.. it is unequaled, being crisp, tender and sweet. It seems to grow well on all soils and under most conditions, withstanding hot, dry weather, and does not rot from the effects of wet seasons, neither do the heads burst.

Danish Grown Seed. Pkt. 10 cts.; oz. 25 cts.; ½ lb. 80 cts.

Select Cucumbers.

Our Cucumbers were grown from the finest selected stock, carefully rogued and true of type. The most of our seed was grown on our Fairfield Farm which for quality and productiveness is unexcelled. Our packets each contain 1-4 ounce of seed.

FAIRFIELD GIANT

Fairfield Giant.

Without any exceptions the darkest green and most nearly seedless Cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of the handsomest of all Cucumbers. The fruits are smooth, of a very deep green color, and grow from fifteen to twenty six inches in length, being one of the largest cuumbers grown. When the fruits are from eight to to twenty six increases. When the fruits are from eight of ten inches in length, or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet, As shown in the illustration the fruits are very long and slim which together with their deep green color will make them bring the top Pkt. 10 cts.; oz. 20 c.; 1-4 lb. 60 c. prices on all markets.

Davis Perfect.

A Cucumber which for shape, quality, color, and forcing indoors, or growing outside is unexcelled. The type is perfectly fixed, it has an ideal shape, being slim and symmetrical.

The eating qualities surpass all other symmetrical. The eating qualities surpass all other varieties. The vines are strong, rampant growers and enormously productive, outyielding most other varieties. It does not change its dark green color when grown outdoors, in fact it resemblas the hothouse product so closely that dealers cannot detect the

difference. The seeds that are contain-

are so small and tender that they are unnoticed. Pkt. 5 cts.; oz. 15 cts.; 1-4 lb. 35 cts., postpaid.

Extra Early White Spine.

A dark green handsome cucumber, often attaining a length of 12 inches: straight and attractive in shape. It makes a hard brittle pickle when small, and a grand table variety when large. Excels in earliness, often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early market. Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. 30 cts.

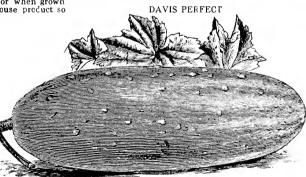

Fordhook Famous.

This is the handsomest of all long green cucumbers; always straight and well formed, they neverturn yellow. Critical buyers are willing to pay an extra price on market for these unequaled fruits.

The vines are of strong vigorous growth. with heavy foliage, and set the extra large fruits freely throughout the season.

The cucumbers are smooth and regular in form, averaging twelve to fourteen inches in length, and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. The cucumbers are about all flesh as the seed spaces are very small. Pkt. 5 cts.; oz. 15 cts.; 1-4 lb. 30 cts., postpaid.

EXTRA EARLY WHITE SPINE

FORDHOOK FAMOUS

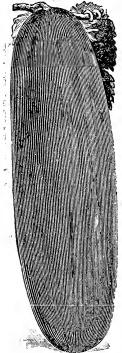

Cumberland CUCUMBER.

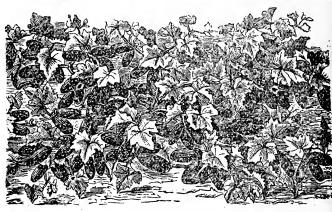

The vines are hardy, of strong vigorous growth, and very productive. The young cu cumbers are thickly set with small spines, and are equally attractive for making small gherkins, modium-sized or large pickles. The straight young fruits possess the distinct roughened surface so much desired in pickles. When matured the fruits average nine to ten inches in length, two and one-half inches in diam ter have well rounded ends and are

in diameter, have well rounded ends, and are of excellent quality for slicing. Pkt. 5 cts.;

of expellent quality for slicing. oz. 10 cts.; \(\frac{1}{2}\) lb. 30 cts., postpaid.

EVERBEARING

Everbearing.

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness it is a fine variety to plant for producing small pickles.

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue from four to five inches in length by an inch and a half in diameter. Owing to its great productiveness it is a fine variety to plant for producing small pickles.

Pkt. 5 cts.; oz.

Emerald.

A symmetrical dark green cucumber which holds its color a long time after being pick-

or a long time after being pica-ed. It is strictly an evergreen, retaining its color until quite ripe, making it an attractive variety. The fruits set early, and its vigorous vines abound in long, straight, handsome fruits of the most desirable qualities. As a slicer, the flesh is perfectly crisp and ten-der, and the flavoring most pleasant. The young fruits being dark green, straight slender and almost spineless, makes an excellent pickle, and when ripe none excel it for making sweet pickles. Good for forcing under glass or long distance shipping. Pkt. 5 cts.; oz. 15 cts.; ½ lb. 30 cts.

Celery.

Our packets of Celery each contain seed enough to produce 500 plants.

WhitePlume. This is the earliest and Celery. The plants grow rapidly and blanch easily during the summer months.

Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up, but stalks should be gathered together and earthed up as in other varieties, so as to produce close artractive bunches. As for succulence, crispness and quality, the White Plume is unequaled. Pkt. 5 cts.: oz. 30 cts.

WHITE PLUME

Golden Self-Blanching.

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle, and of a delicious flavor surpassed by no other variety, while it has the decided meritof being self-blanching to a remarkable degree. It is extensively grown both for market and private use, not only on account of its easy culture,

but for its superior quality. The hearts are large and solid, and blanched to a beautiful golden yellow. When grown in moist soil the stalks are numerous and and large in size. Strictly 10 cts.; oz. 65 cts.

GOLDEN-SELF BLANCHING

Winter Queen.

The most popular of all Celeries for winter. It grows very stout, thick and heavy, with a much larger heart than any other variety. It is a close, compact grower, branches to a beautiful creamy white and is showy and attractive in appearance when ready for table use. The stalks are solid, crisp and of a rich nutty days. flavor. It bunches up handsomely and presents an attractive appearance on the market. Pkt. 5 cts.; oz. 20 ets.

Giant Pascal. One or the most for winter use. It grows about two feet high; the stalks are thick, solid and stringless, and almost as brittle as glass. It is of strong growth, producing large perfectly blanched stalks when hilled up properly. Unequaled for rich nutty flavor blanched stalks when hilled up properly. Unequaled for rich nutty flavor Blanches very easily. A fine keeper and an excellent shipper, retaining tolor. For mid-winter and early spring use

CELERIAC, or Turnip Rooted Celery.

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the as other vegetables, for flavoring soups, or sliced and used as a salad. It is highly esteemed either cooked in the same manner bottom of page. Pkt. 5 cts.; oz. 15 cts.

CRESS. Fine Curled.

An annual making a good salad. Leaves sley. It is dwarf and compact in growth. Leaves are finely cut and feathery, like a good growth. Very ornamental; of quick growth parsley. crisp and refreshing. Pkt. 5 cts.: oz. 10 cts.

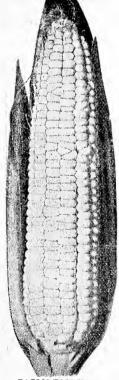

Sweet Corn.

We offer Fairfield Grown Stock which for QUALITY is unsurpassed. Our packets each contain one and one-half ounces of seed.

Early Fordhook.

One of the earliest varieties of Sweet Corn in cultivation. The ears are large, averaging from 6 to 8 inches in length. Ears are eight-rowed, with quite small cobs and deep grains. The seed is of exceptional hardiness, admitting to early planting. The stalks are of sturdy vigorous growth, three to four feet high. with abundant foliage, and generally produce two fine ears to a stalk.

Both grains and cob are of a pure white color. Pkt 5 cts.; \frac{1}{2} pt. 15 cts.; pt.25 cts.; qt. 40 cts.

EARLY FORDHOOK

Golden Bantam

Sweet Corn.

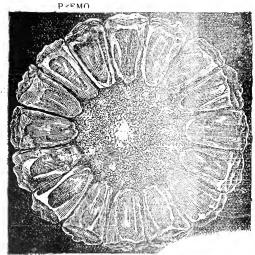

This is without any exceptions the SWEET-EST AND MOST TEN-DER SWEET CORN ON THE MARKET. It is not only extra early, but also very hardy. Although the grain in its young and tender state is sweet beyond comparison, the neyond comparison, the dry seed is quite solid permitting of the earliest planting. The stalks grow from three to four feet high and produce one to two good cars on each stalk. The ears are from time to the transition to see the transition to see the stalk. each stalk. The ears are from five to seven inches long. The color of the grains is a bright golden yellow. In flavor it is exceptionally rich and sugary. In quality and productiveness it leads all varieties.
Pkt, 5 cts.; 1-2 pt. 15 cts.; pt. 25 cts.; qt. 40 cts.; postpaid.

Premo

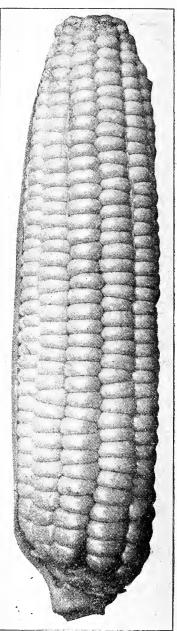

Sweet Corn.

A LEADING EARLY VARIETY. I combines all the merits of the best early varieties, but is superior to them all in size, yield and quality. Fremo is very quality. Fremo is very hardy and may be planted sconer than other varieties.

The stalks grow about five feet high and are v-ry vigorous, generally bearing two well developed ears to each stalk. Its earliness and table quality is sure to bring it into favor with all gardeners. Pkt. 5 ets.; ½ pt. 15 ets.; pt. 25 ets.; gt. 40 ets.

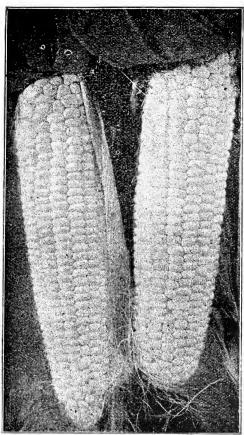

WHILE EVENGREEN

GOLDEN BANTAM

White Evergreen.

THE LEADING LATE VARIETY. MOST VALUABLE SWEET CORN EVER INTRODUCED. White Evergreen is much superior to Stowell's. It retains all the most desirable features, with the added merits of pure whiteness in color, a more tender grain, and distinctly sweeter flavor. The stalks are strong growers, from six to seven feet high, and sometimes bear three fine ears to a stalk. Ihe ears average very large and are well filled to the rips with the long sweet fine ears to a stalk. I he ears average very large and are well filled to the tips with the long sweet. grains, of pure whiteness and most delicious flavor. The ears contain sixteen or more rows of deep grains, which are protected by a thick heavy husk. Pkt. 5 cts.; ½ pt. 15 cts.; pt. 25 cts.; qt. 40 cts.

Howling Mob Sweet Corn.

The largest-eared, sweetest-lavored, early variety in cultivation. It is of exceptional hardness and productiveness. The talks are strong and vigorous, our to five feet high, and generally produce two fine ears to each stalk. The ears are seven to nine nches in length, with fourteen or more rows of medium-sized pearly white grains. The grains are sweet and rich in flavor. The lars are protected by a thick teavy husk which extends beyond the tip of the ear and forms a safeguard against the destructive green worms. Pkt. 5 cts.; ½ t. 15 cts.; pt. 25 cts.; qt. 40 cts., postpaid.

POP CORN.

White Rice. This variety is the best and white; ears large sized, very handsome; productive; uality excellent; very crisp and delicious. Pkt. 5 cts.: pt. 20 cts.: qt. 35 cts.

Kohl Rabi.

White Vienna. This vegetable is grown for its turnip-shaped bulb, which is formed above ground.

Excellent for soups or cooked in the same manner as turnips.
The bulbs should be used while young and ender. The best for table use. Pkt. 5 cts.; oz. 15 cts.

Purple Vienna. Grows to large size and of juicy ality. Very early, of fine shape and delicate flavor. Pkt. 5 cts.; oz. 15 cts.

HORSE KADISH

HORSE RADISH. Maliner Kren.

A new, very quickgrowing, large-rooted variety. Cuttings set out in April will yield large bottoms in October.

large oottoms in October.

Its flavor is the best,
this is very noticable in the fall when the old variety would be too old and juicy to use. Roots are as white as chalk. It is as easily grown as potatoes and should be grown in every garden. Per dozen, 25 cts., postpaid. Ready for shipping about April.

JUNG'S SEEDS ARE TESTED AND ARE SURE TO GROW.

Egg Plant. Black Beauty.

The earliest and best of all large-fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet black color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruit, which weighs from one to three pounds each, close to the stem. The callyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost.

Pkt. 10 cts.: oz. 49 cts.

GROUND CHERRY

The introducer says: "It is very good for canning, preserving and pies. Dried in sugar as raisins or figs, they are excellent; handsome yellow color and will keep until January. Produces fruit of strawberry flavor in greatabundance, from 1 to 2 inches in diameter; highly prized." Per pkt. 5c.; 3 pkts 10c.

STINE PEACE

A splendid no velty, very striking in color and a most wonderful yielder; of bright orange colorange colorange. Vines grow some what s maller thanamusk melon. For splendid. Per

melon. For sweet pickles and preserving they are splendid. Per pkt. 5c.; 3 pkts. 10c., postpaid.

Extra Early Spanish Peanut.

This splendid variety is very desirable because so early and prolific. It grows perfectly erect. Planted in April they ripen in August, and if planted as late as July will mature a crop before frost. It is in every particular a very satisfactory variety to grow. Produces very few imperfect augs. Can be grown in the North. Pkt. 5 cents; pint 30 cents; quart 35 cents. By express, quart 25 cents.

Rhubarb, or Pie Plant. Victoria.

A splendid variety, stalks very large and tender. For best results roots should be planted three feet apart each way.

Ready about April 1. Price, 20 cts., each; 3 for 50 cts., by mail postpaid.

LEEK.

LONG MEZIERES.

Most highly esteemed for flavoring soups, stews, etc. The plants are of strong, vigorous growth, and have extra long stems which blanch to a snowy whiteness and are of delicious flavor. Cultivate the same as for Onions. Pkt. 5 cts; oz. 15 cts.

VICTORIA RHUBARB

Lettuce.

You should grow Lettuce largely for your table! Nothing is more wholesome, and if you once acquire the habit you will wonder how you ever enjoyed a dinner without this delightful salad. Our stock is extra fine. Our packets each cantain 1-4 ounce of seed.

Naumberger.

This new variety is sure to become famous for its remarkable certainty to produce a fine solid head of good size. It is also extra early, being one of the first to head; the heads will stand longer without rotting or bolting to seed than any other variety. The quality is all that can be desired, being tender, buttery and of very mild flavor. Most Pkt. 5 cts.; oz. 10 cts.: 1 lb. 25 cts.

WAYAHEAD

Earliest Wavahead.

This is the quickest growing and most attractive extreme-early Lettuce, producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners, as the early heads always between the conditive of the second service. bring the best price. Its quality is unsurpassed; the heads are very solid; specimen heads have weighed six ounces when trimmed. The interior of the heads is blanched to a beautiful creamy color; while the leaves are tender, juicy and sweet-flavored. The quality of this var iety is unequaled among the early sorts. Pkt. 5 cts.; oz. 10 cts.; 4 lb. 30 cts.

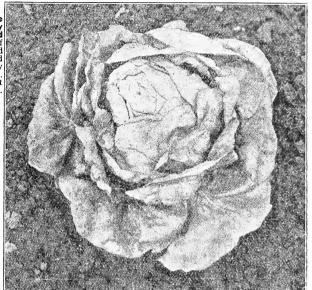

Jung's All Cream.

This remarkable Lettuce does not head, but makes a loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part

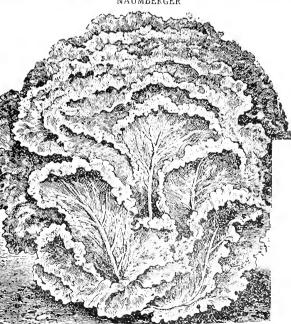

of the outer leaves turning upward very gracefully, and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows very quickly, is ready to use early, and remains for weeks. Pkt. 5 cts.; ¿ 1b. 25 cts.

Grand Rapids.

A well known forcing variety. It does not form heads, but makes large bunches of light green leaves with fringed edges.
Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. cts.; oz. 10 cts.; ½ lb. 25 cts.

NAUMBERGER

JUNG'S ALL CREAM

California Cream Butter.

A Grand, Good Butter Lettuce for summer use. The heads are of good size, round and solid. The outside leaves are medium green, while those within are of a rich cream yellow. Rich and buttery in taste. It roduces large solid heads even in hot weather. Easy to grow and a good shipping variety. Pkt. 5 cts.; oz. 10 cts.; 1 lb. 25 cts.

All Heart.

An exceptionally hardy variety producing medium sized heads quite early. The heads are from five to six inches in diameter, very solid, and the inner leaves here the control of the contr blanched to a rich creamy white.

The large heads are exceedingly crisp and tender and of fine quaiity. A very desirable variety for hot-bed culture in winter and for withstanding heat in summer. Pkt. 5 cts.; oz. 10 cts.; 1 lb. 25 cts.

This magnifient let-Deacon. weather better than any other of the rich buthot ter varieties. Plants make firm heads, nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream-yellow and of delicious rich buttery flavor.

Pkt. 5 cts.; oz. 10 cts.; 1 lb. 25 cts., postpaid.

May King. This variety is not in the least affected by cold or wet weather, but produces large solid heads, 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter, with the outer leaves folded closely, forming the plant into a solid head. The outer leaves are light dream elightic from the plant into a solid head.

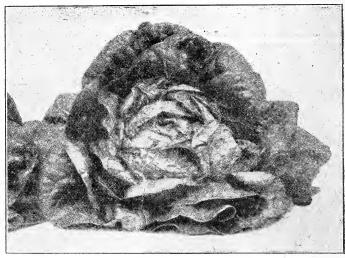

The outer leaves are light green, slightly tinged with brown; the inner leaves are light yellow and of a fine, rich, buttery flavor. Pkt. 5 cts.; oz. 10 cts.; ½ lb. 30 cts.

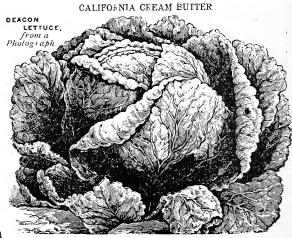

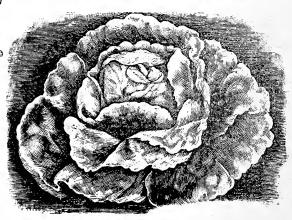

New Icebgrg. The unusual the heads is assured by the large white main ribs of the leaves, each of which, curving strongly into the center, acts like a truss, makstrongly into the center, acts like a truss, maning it impossible for the leaves to open outward and expose the center, which is always throughly blanched. It is quick growing and always crisp and tender whether propagated in early spring or in the hot days of summer.

The bade are of tood size. Pht. Sec.

MAY KING

Musk Melons.

Our packets each contain 1-4 ounce of seed.

New Model.

SPICY GREEN FLESH. SMALL SEED CAVITY. A PRODIGIOUS BEARER. The Model is an early cantaloupe,

about twice the size of Rocky Ford, and more productive. It is almost round. more productive. It is almost round. the flesh is thick and firm, green-colored, while in delicacy and flavor it is unexcelled. The flesh extends from the rind almost to the center of the melon. The Model bears transportation well, and can be carried to distanctities without injury. The average weight per melon is over two pounds. No one who wants good melons for

either home or market use should fail to plant this variety.
Pkt. 5 cts.; oz. 15 cts.; ½ lb. 40 cts., postpaid.

This is a selection of the popular Hackensack, but ripens fully ten days earlier. A bouutiful yielder and one of the most extensively grown of all musk melons. It is a large, round variety, flattened at the ends, well ribbed and deeply netted. The flesh is green, inclining towards yellow at the center, and of the most delicious flavor. Fruits attain a good t is also considered as a splendid shipping melon.

Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. 30 cts., postpaid. size. antly

NEW FORDHOOK.

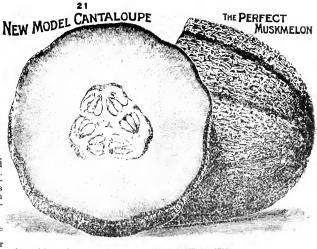

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to Emerald Gem in delicious flavor.

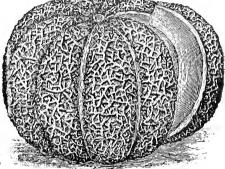

So firm is the rough-netted skin, and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem.

The flesh is very thick, of an at-tractive salmon color and surpassingly sweet to the very rind. The rind, although thin, is unusually mm, so that the fruits carry well to market. It is most vigorous in growth, very early and extensive firm, so that the and extremely prolific. Each vine sets from 7 to 9 melons immediately around the stem; frequently the fruits touch one another.

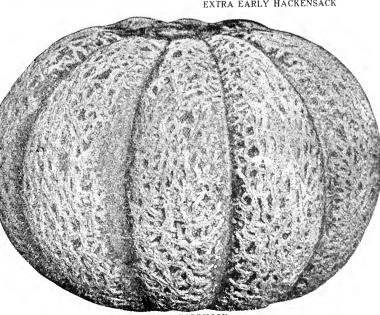

The melons are The meions are remarkably even in size, weighing from 1 to 2 pounds each. Be sure to give New Fordhook a trial.

Pkt. 10 cts.; oz. 15 cts.; 1-4 lb. 35 cts.

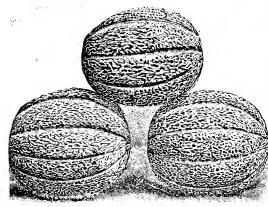

EXTRA EARLY HACKENSACK

NEW FORDHOOK

ROCKY FORD

Burrell's Gem.

A popular salmon fleshed melon. The melons are 6 to 7 inches long by 4 to 5 inches in diameter, rather sharply sloping at the ends. They are quite well ribbed and covered with a fine grayish netting. The flesh is thick and firm, ripening close to the skin, leaving only a thin rind.

The skin is a rich dark green, contresting flight with the deep orange salmon

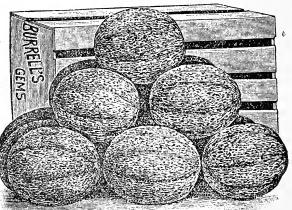

The skin is a rich dark green, contresting finely with the deep orange-salmon colored flesh, which is very sweet and tender. Pkt. 5 cts.; oz. 10 cts.; ½ lb. 30 cts.

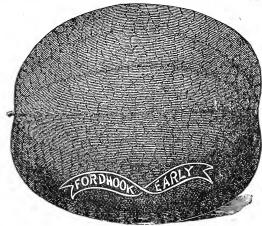

Paul Rose. This variety combines all the good qualities of Netted Gem and Osage, the varieties from which it originated; possessing the sweetness of the latter and the finely netted appearance of the Gem. The fruits are nearly round or slightly oval and of a light green color when ru'ly ripe. The flesh is thick, of a rich orange color, and ricens close to the rind. Its firm flesh makes it an ideal shipper. Pkt. 5 cts; cz. 10 cts; 4 lb. 30 cts.

ONE OF THE MOST POPULAR GREEN FLESHED MUSK MELONS. In the hands of Rocky Ford growers it has made Colorado famous in Eastern markets for melons of UNEQUALED QUALITY. The vines are exceedingly healthy and vigerous, bearing an enormous quantity of fruits during the entire season.

The color of the skin is a rich greenish gold: the tetting is prominent and light in color; appearance very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting, and it has an exceedinnly small seed cavity. It is very sweet and luscious in flavor. No melon comes to market that sells as readily and at such high prices as the Rocky Ford, often to the exclusion of other varieties. Pkt. 5 cts.; 02. 10 cts.; 1 lb. 30 cts.

and the said of the

Water Melons.

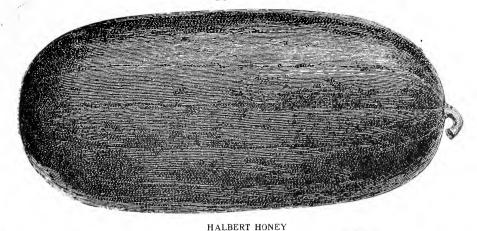

Our packets each contain 1-4 ounce of seed."

Fordhook Early.

This is the only extra early water melon we have that is of good size and quality. From seed planted May 10 LARGE RIPE MELONS WERE PICKED THE LAST DAYS OF JULY.

The fruits are of large size, rather short and blocky in form, with large diameters. Flesh bright red, crisp, sweet and of splendid quality. The quality continues to improve after ripening. The heart is large, there is little or no seed cavity, and very few scds—all solid flesh, the quality of which is sustained clear to the rind. The vines are of strong vigorous growth setting large melons in good numbers. Skin dark green, occasionally with faint stripes of a light green. A good shipper. Pkt 5 cts.; oz. 10 cts.; 4 lb. 25 cts., postpaid.

Poor Seed Invariably Causes Loss And Disappointment. Plant Jung Quality Seeds And You Will Have RESULTS.

Halbert Honey Water Melon.

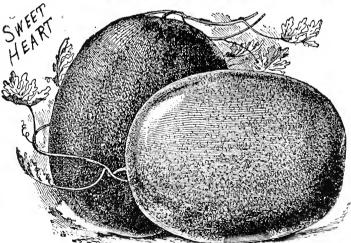

The very finest melon in cultivation for home use or nearby market. A melon that has no equal in beauty, quality, and productiveness. The fruits are smooth and regular in outline, 14 to 18 inches long, and 6 to 8 inches in diameter. Color of the rind is a clear, glossy, deep green. The flesh is a beautiful crimson, extending to within less than half an inch of the rind, which like the rind is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruits throughout the season. The sweet flesh melts away in the mouth like honey, Pkt. 5 cts.; oz. 10 cts.; ‡ lb. 20 cts.

DIXIE

Onions.

We make a specialty of "HIGH GRADE" Onion seed. It is better to plant no Onions at all than to sow seed of poor quality. Our seed is grown from the finest selected bulbs and is of strong vitality.

Our packets of Onions contain sufficient seed to sow about 50 feet of drill.

Yellow Globe Danvers.

This is a standard yellow onion and is more largely grown than almost any other variety. The bulbs grow to about two and one-half inches in diameter, are nearly globe shaped, and of a light golden brown color. The flesh is pure The bulb is extremely hard and solid, and its earliness, sure cropping character, handsome appearance and excellent quality, have placed YELLOW GLOBE DANVERS among the leading varieties for the home or market gar-It forms a bulb very early in the season, so that it may be used almost all summer, and ripens up crisp and solid in the fall. It is a very heavy Our strain of this variety is SED. Pkt. 5 cts.; oz. 15 cropper. Our s UNSURPASSED. cts.; 1-4 lb. 45 cts.; lb. \$1.40.

Large Red

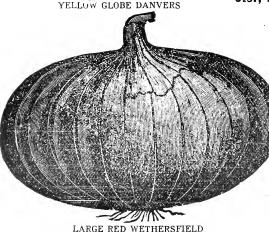

Wethertfield.

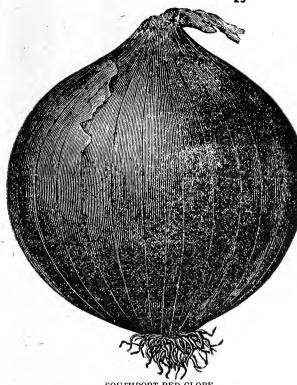

The most popular red variety. It is very productive having yielded over one thousand bushels per acre. It is not an early ripening sort, but continues in growth throughout the season and consequently makes a very large onion. The bulbs are large though somewhat flattened as shown in the illustration. The outer skin is a deen purplish red flash red flash.

The outer skin is a deep purplish red; flesh white slightly tinged with rose. It i keeper: suitable for late winter markets. It is a fine

The flavor is good and mild, admirable for boiling. The best variety for poor or dry soils. You will make no mistake by giving this variety a trial. Pkt. 5 cts.; oz. 15 cts.; ‡ lb. 45 cts.; lb. \$1.50., postpaid.

Do not fail to try JUNG'S FAIRFIELD GIANT CUCUMBER. It is described and illustrated on page 13.

Three True Globe Onions.

THE SOUTHPORT GLOBE ONIONS HAVE INCREASED WONDERFULLY IN PUBLIC FAVOR DURING THE LAST FEW YEARS, AND THEY WELL DESERVE THEIR POPULARITY. In almost all markets they invariably bring top prices. They are not only cf handsome appearance, remarkable solidity, and good keepers, but also fully cqual in yield to the BEST STRAINS OF ANY VARIETIES.

Southport

Red Globe.

A handsome onion of immense size, averaging from nine to ten inches in circumference, solid, heavy, and of perfect globe shape. The skin is a glossy deep purplish-red color. The flesh is closerained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper, and a big yielder, averaging, under good culture, from 800 to 1,000 bushels per acre.

Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color, and typical globe shape, with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 5cts.; oz. 15cts.; \(\frac{1}{2} \) lb. 45 cts.; lb.\$1.60., postpaid.

SOUTHPORT RED GLOBE

Southport Yellow Globe.

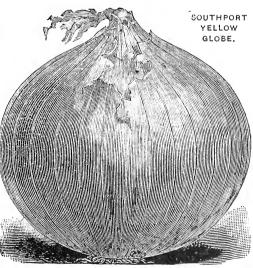

This is one of the most satisfactory and popular varieties raised for family use or for market. It is an enormous yielder, hardy and reliable, making, under normal conditions, often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold, and are extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden-yellow; the flesh snow-white, firm, mild and juicy. The small necks enable the onions to ripen down evenly; insuring good keeping qualities. Pkt. 5 cts.; oz. 10 cts.; ½ lb. 45 cts.; b. \$1.60. postpaid.

Southport White Globe.

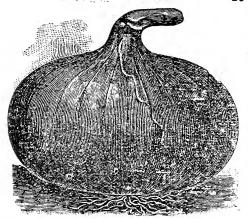

THE MOST BEAUTIFUL ONION GROWN, BEING OF SYMMETRICAL GLOBE SHAPE WITH A SMOOTH SATIN-LIKE SKIN, FORMING A PERFECT SILVER BALL.

It grows to a large size, averaging seven to nine inches in circumference and is solid and heavy; the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silverskin. As soon

the write Portugal or Silverskin. As soon as ripe the bulbs should be stored in a cool dark shed or dry cellar. It is a heavy cropper. For the family garden as well as for market it is a valuable onion. Pkt. 10 cts.; oz. 20 cts.; 1-4 lb. 60 c.

We Deliver Free all seed quoted in this catalog by the packet, ounce, quarter-pound, pound, half-pint, pint and quart. On seeds in larger quantities purchasers must pay the Freight or Express charges.

AUSTRALIAN BROWN

Australian Brown.

IMPROVED HALF-LONG

Choice Garden Peas.

OUR PEAS ARE NORTHERN GROWN AND ARE FREE FROM BUGS. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand-picked. Pkt. contains 2 ounces.

NEW EXTRA EARLY DWARF PEA.

Little Marvel. The vines are of dwarf even growth, average fifteen inches in height and ara heavily set with fine pods, frequently borne in pairs. The pods average about three inches in length, are square at the bottom and well filled with six to seven quite large, deep green peas. The peas are ready for the table fully as early as American Wonder or Nott's Excelsior, while the pods are larger and the vines produce a much heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. sire a fine early crop of the choicest quality of wrinkled peas will be delighted with Little Marvel. Pkt. 10 cts.; 1-2 pt. 20 cts.; pt. 30 cts; qt. 50 cts.

PARSLLY

STOCK.

One packet will sow about 50 feet of drill.

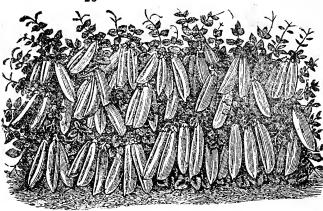

Jung's Private Stock.

This is a highly improved type of the Half-Long, producing unitermly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they are easily dug, and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness, and especially fine flavored, cooking tender, sweet and rich. The roots may remain in the from core and stringtness, and the roots may remain in the ing tender, sweet and rich. The roots may remain in the ground all winter, being hardy, or some may be dug in the fall and stored in sand or soil for winter use. Frost improves the install the same in the same is well shown. The shape is well shown. It is a heavy cropper. The shape is well shown tration. Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. quality. It is a in the illustration. 25 cts.; lb. 80 cts,

Early Excelsior.

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth being sim-ilar to Nott's Excelsior in this respect but superior to it in the following particulars; first, the vines are more dense and sturdy; second, the peas and pods are decidedly larger, measuring from three and one-half to four inches in length and contain from six to eight large peas of delicious quality; it is a much surer cropper. It is also very early, the past three seasons it was ready the past three seasons it was ready for use in forty-five days after sowing. ONE OF THE MOST VALUABLE EARLY PEAS SURPASSING IN EARLINESS, YIELD AND QUALITY.
Pkt. 5 cts.; 1-2 pt 15 cts.; pt. 25 cts.; qt. 45 cts.

EARLY EXCELSIOR

HARBINGER

Harbinger.

An extra early dwarf pea of of English origin which rarely grows over eight inches high and is immensely product-ive. It is quite distinct from all other varieties in habit of growth and appearance; the vines being unusually robust and stocky. The vines are literally covered with pods which are well filed with peas of delicious quality. The even regular habit of

the plants is a great advantage particularly to market growers. Pkt, 5 cts.; 2pt. 15 cts.; pt. 25 cts.; qt. 45 cts.

Nott's Excelsion.

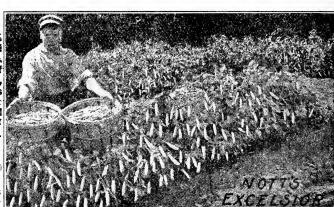

The sweetest and prolific most of Early Dwarf Peas. fine variety of dwarf compact growth, with pods three inches length, which arc well filled to the squared ends with large peas of unusually sweet flavor.

It is of vigorous growth and won derfully productive. It grows for twelve to fourteen inches high. It grows from

In favorable weather and soil it will mature in the remarkable

short period of forty five days.

The best sort for the home of market garden. Pkt. 5 cts.; \(\frac{1}{2} \) pt. 15 cts.; pt. 25 cts.; qt. 45 cts.

IMPROVED SENATOR

British Wonder.

THE SWEETEST FLAVORED PEA IN CULTIVATION.

Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except that the foliage is darker green and pods are not so sharply pointed. It is, however, much more reliable, and is a SURER CROPPER. The vines are very stocky, twelve to

eighteen inches high and are well supplied with light green foliage, which indicates great vigor. The pods are produced in the greatest profusion, measuring about four inches in length, and contain from eight to ten large dark green peas each which are of a most luscious flavor. It matures a little earlier than Dwarf Telephone, Pkt. 5 cts.; ½ pt. 15 cts.; pt. 25 cts.; qt. 45 cts., postpaid. recommended.

ARISTOCRAT

Improved Senator.

A SPLENDID MAIN-CROP PEA.

A splendid second-early variety; very productive of large well filled pods. It is of the same season as McLeans At is of the same season as McLeans Advancer, but the pods are much lar-ger and the vines much more prolific. Vines grow about two feet high, are very hardy and carry a large crop. The pods contain from seven to ten

peas which are sweet and tender, even when large. Pkt. 5 cts.; ½ pt. 15 cts.; pt. 25 cts.; qt. 45 cts., postpaid.

For description of Aristocrat see page 30.

BRITISH WONDER

Jung's Aristocrat. MAMMOTH PODDED

This grand new Pea is of the large podded type as the Telephone, but the pods are even larger and the peas sweeter in flavor.

The vines are of a rich green color, very stocky in growth, from sixteen to eighteen inches tall, and do not require brushing. The pods are borne in great profusion and mostly in pairs. In size of pods it is an undisputed leader, single pods often measure six inches and over in length. The immense pods are straight and of fine appearance, and contain from eight to twelve large wrinkled peas, closely packed, tender, sweet and of exquisite Quality is always to be preferred to quannavor. Quality is always to be preferred to quantity but in this pea you have both. They keep their tenderness and superb flavor long a ter they are young, and also retain their attractive dark green color when served. On our Fairfield Farm it was the largest podded variety grown. Pkt. 10 cts.; ½ pt. 20 cts.; pt. 30 cts.; qt. 50 cts.

See cut on page 29.

Dwarf Telephone.

A GIANT PODDED PEA. This is one of the tinest dwarf green wrinkled Marrow Peas in cultivation, and one that ought to be grown in every garden. A strong luxuriant growing variety, attaining a height of about eighteen inches. The pods, which grow five inches long, are packed with immense wrinkled marrow peas, eight to ten being the average, while twelve to fifteen to a pod are frequently found. The quality is superb, rich sugary and meltingly tender

As high as eighteen large handsome pods have n grown on a single plant. Pkt. 5 cts.; ½ pt. been grown on a single plant. 20 cts.; pt. 30 cts.; qt. 50 cts.

DWARF TELEPHONE

Mammoth Melting Sugar.

An edible podded pea. The vines grow four to five feet high. It is very productive and produces enormous pods which average five to six inches in length and one and a half inches broad: thick and fleshy. When broken and boiled and one and a nan incress broad the and fleshy. When broken and boiled like string-beans and served with butter sauce they have a luscious flavor. It is a delicious vegetable and should be better known and more generally used.

Chinese Giant. THE FINEST, LARGEST AND HANDSOMEST PEPPER OF THEM ALL. CHINESE GIANT IS CERTAINLY A WONDER.

Not only is it immensely productive for so large a pepper, but its enormous size and magnificent appearance make itsell most readily. The plants are vigorous in growth but of stocky habit, sellom more than two feet in height. It produces monstrous peppers of thick blocky form which are of the most brilliant to the board that the product the state of the soll of the light of the soll of t more than two feet in neight. It produces monstrous peppers of thick blocky form which are of the most oriliant scarlet. They grow four to five inches broad at the top and are of equal length, divided into four or more ridges; when ripe they are indented at the blossom end. Frequently half a dozen peppers touch each other as if on a single bunch. The flesh is thick and very mild, being entirely free from any flery flavor. They can be sliced and eaten like tomatoes. Pkt. 10 cts.; ½ oz. 35 cts.; oz. 60 cts.

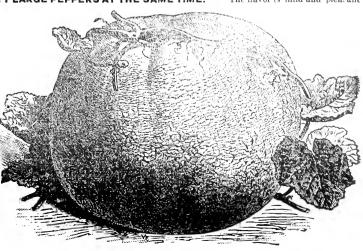

GOLDEN QUEEN IS THE BEST OF ALL YELLOW PEPPERS. Golden Queen. ing six to ten inches in length and four to five inches in diameter are not uncommon. A single plant sometimes carries TWENTY LARGE PEPPERS AT THE SAME TIME. The flavor is mild and pleasant

and it may be eaten raw. It always commands the highest price on ac-count of its large size and fine appearance. unexcelled for stuffing. Pkt. 5 cts.; oz. 30 cts.

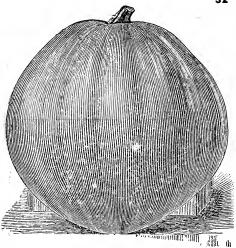

PUMPKINS.

Quaker Pie.

A most prolific variety The fruits are broad pear shaped or slightly ovalin form. The flesh is very thick and fine grained, of a beautiful golden yellow color, and in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich creamy-buff, which gives it a handsome appearance. Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. 20 c.; lb. 70 c.

TRUE MAMMOTH See page 32

QUAKER PIE See page 31

True Mammoth PUMPKIN.

THE LARGEST PUMPKIN IN CULTIVATION.
This is the very best strain of the True Mammoth Pumpkin. Fruits grow to enormous size, specimens have been grown weighing one-hundred pounds and over. The skin is a light yellow russet color, flesh and over. The skin is a light yellow russet color, asservery thick, bright-yellow, fine grained, sweet and tender and of overllent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety.

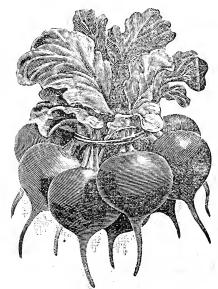

Pkt. 5 cts.; oz. 15 cts.; ½ lb. 30 cts.: lb. \$1.00.

Big Tom.

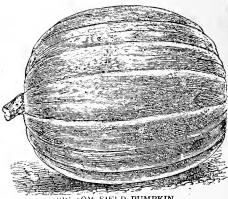

Also known as Connecticut Field. Vines are of strong vigorous growth and wonderfully productive. Fruits will average 15 to 20 it ches in diameter; round or oval in form. The skin is smooth and hard, of a reddish-orange color, slightly ribbed, with thick, rich orange yellow flesh. It is the hardiest of all pumpkins and is good for pies.

This variety is extensively grown for stock feeding and is generally planted in with the corn.

1 lb. 15 cts.; lb. 40 cts., postpaid.

EARLIEST SCARLET

BIG IOM FIELD PUMPKIN

RADISH

Our packets each contain enough seed to sow 50 feet of row.

Earliest Scarlet.

A fine bright red radish of quick growth.

It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 25 days. It is solid in character, and very uniform in size and shape.

The tops are very small thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow centre or pithy fibre so often found in radish. The shape is well shown in

often found in radish. The shape is well shown in the illustration Pkt. 5 cts.; oz. 10 cts.; \(\frac{1}{2}\) lb. 20 cts.; lb. 60 cts., postpaid.

French Breakfast.

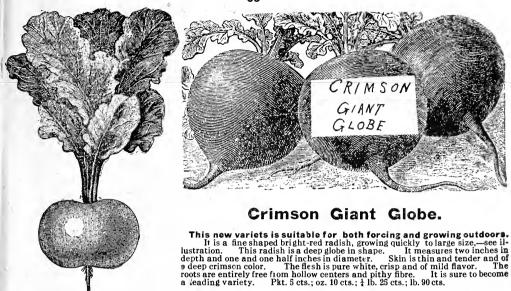

An early medium sized Radish, olive shaped, very crisp and tender, of a beautiful scarlet color, tipped with white. It grows about two inches long and is decidedly stump-rooted. A splendid variety for the table, for its excellent quality and beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5 cts.; oz. 10 cts.; ‡ lb. 20 cts.; 1b. 70 cts.

Rosy Gem.

One of the most popular and attractive short varie-ever grown. Ready for the table in from 17 25 days after sowing. It is a rich deep scarlet ties ever grown. Ready for the table in from 17
to 25 days after sowing. It is a rich deep scarlet
at the top, beautifully blended into pure white at the
bottom. Exceedingly tender and crisp. Flavor very
mild and delicious. A gem in earliness, beauty and
quality. Its smooth skin and fine color give it an appetizing appearance when served. cts.: 4 lb. 20 cts.: lb. 70 cts. Pkt. 5 cts.: oz. 10

FRENCH BREAKFAST

Hailstone. The earliest and quickest growing !White Radish in cultivation--ready for use in from 15 to 18 days after sowing. The radishes are regular turnip-shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp nally small. Its extreme earliness, handsome appearance, solidity, and superb pular first early white turnip radish. Pkt. 5 cts.; jo. 20 cts.; jb. 25 cts.; jb. 80 cts. HAILSTONE uring one in yor. The foliage is unusually small. and of mild flavor.

Early Long Scarlet Short Top. This variety is a standard and excellent sort either half above ground, are very uniform in shape, smooth, very bright red in color, and continue crisp and tender until fully matured when they are about six inches long.

It matures beautiful radishes, which are always brittle and sweet, 25 to 36 days from the sowing of the seed.

Pkt. 5 cts.; oz. 10 cts.; † 1b. 20 cts.; | 1b. 65 cts.;

Non Plus Ultra. One of the earliest forcing Radishes in cultivation. The roots are round and deep from 20 to 25 days after sowing. Flesh is white, crisp and tender, and of remarkable fine quality. Pkt. 5 cts.; oz. 10 cts.; †1b, 20 cts.; 1b. 50 cts.;

White Icicle. A Long, Slender, Mild, Crisp, Tender, Pure White It is of the best flavor, very brittle and crisp. The New White Icicle. Radish. root grow about four inches long and are ready for use in about 25 days after sowing.

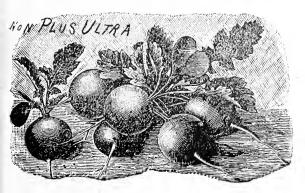

The leaves are short and f w, making it an excellent variety for forcing. It produces long, slender, pure white radishes very early in the season much earlier and finer in quality than any other long w hite variety. See illustration.

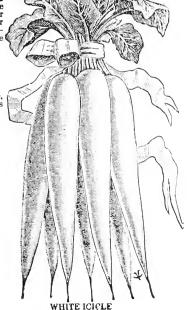

Pkt. 5 cfs.; oz. 10 cts.; \(\frac{1}{2}\) lb. 25 cts.; lb. 80 cts.

quality, cannot fail to make it the most popular first early white turnip radish.

WINTER RADISH. Chinese Rose.

This is a large and fine shaped radish, growing partly above the ground. It is of a half long shape with a blunt point; rose-colored skin; flesh white. solid as an apple. It has not the strong flavor of the Black Spanish and keeps Pkt. 5 cts.; oz. 10 cts.; \(\frac{1}{4}\) lb. 25 cts.; lb. 70 cts. equally as well.

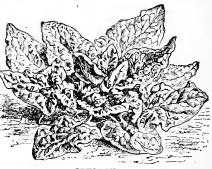

SALSIFY

SALSIFY.

Mammoth Sandwich Island.

One of the most delicious winter vegetables, and also one One of the most deficious winter vegetables, and also one of the most nutritious; the flavor is sweet an 1 highly esteemed whether served boiled with butter or other suitable sauces, or sliced and fried, or used in soup. This new variety, where known, is entirely superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in spring produces large fine roots that may remain in the ground all winter or may be dug and stored in sand or earth in November, thus keeping them plump and sweet, to be used as desired during the winter. Mild delicious in flavor. One pkt. will sow fifty feet of row. Pkt. 5 cts.; oz. 15 cts.; 1-4 10. 35 cts.; 1b. \$1.20, postpaid.

Spinach.

One package of Spinach will sow about 50 feet of row.

Victoria. This is a handsome variety with exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark green leaves being of the true Savoy appearance and of the finest quality.

It remains in prime condition two to three weeks atter most other varieties have run to seed. Highly praised by market gardeners, Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. 15 cts.; lb. 40 cts., postpaid.

One package of Squash contains enough seed to plant 10 hills.

Bush Fordhook.

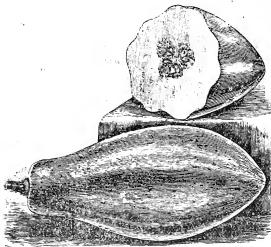

The most desirable squash for either summer or winter use. It is of true bush type and can be grown much closer together than

busn type and can be grown much closer together than the running sor s. The vines are of strong vigorous growth and wonderfully productive. The fluits are pear-shaped, seven to nine inches long, slightly ridged, smooth thin yellow skin. Flesh is very thick and of a light straw-yellow color. For frying baking, or making | ies they are unsurpassed Stored in a dry place they will keep until the following spring. It is early and has proven to be one of the hardiest and most dependent problements to real longuists. Pkt Sets on 10 ets.

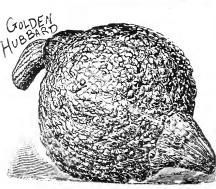

dependable squash for all localities. 1-4 lb. 30 cts.; lb. \$1.00., postpaid. Pkt. 5 cts.; oz. 10 cts.;

AN ELEGANT WINTER SQUASH. Flesh deep golden yellow, much richer in color than Hubbard. fine-grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness combined with its sweet rich lavor, attractive color and shape, are bound to make it a poplar Fall and Winter variety. Golden Hubbard is a sport from he well known old Hubbard, which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 5cts.; oz. 10 cts.; 1-4 lb. 25 cts.

BUEH FUKLINON

Giant Summer

Crookneck.

This magnifi/:ent strain is equally as early as the common small fruited varieties. It is of a bright yellow color and from eighteen inches to two feet long. Fruits are solid, heavy, and freely produced on healthy vigor us plants of compact bush habit. The flesh has a greenish, yellow color, is dry, and of most agreeable flavor. A most profitable variety to grow for market as it grows very rapidly and is of extra large size. It is very productive and of superior quality. Pkt. 5 cts.: 0z. 10 cts.; 1-4 lb. 25 cts.

New Delicious.

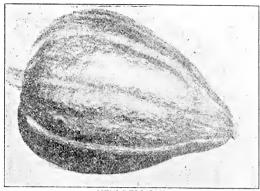

This is one of the best flavored squashes in existence. In thickness of flesh it surpasses nearly every variety. The color is a dark orange. For table use no other variety compares with it in compactness of flesh, dryness, sweetness, and exceeding richness of flavor.

It is a fall and winter squash.

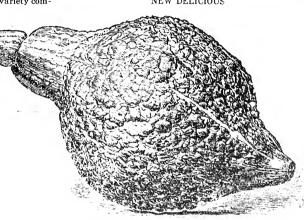

It is a fall and winter squash.
The fruits vary in form and color
but are uniformly delicious in
flavor. Pkt. 5 cts.; oz. 10 cts.:
1-4 lb. 25 cts., postpaid.

Golden Bronze.

Another good winter squash. The fruits are oval in form, thickest at the blossom end; skin dark grayish green; deepening to bronze green when ripened. Flesh thick, deepest orange-yellow in color, fine grained and exceptionally sweet in flavor. It is early in maturing, a good keeper, and yields a large supply of fruits of uniform size and appearance. Fruits average from eight to ten pounds each. Pkt. 5 cts.: 10 cts.; 1-4 lb. 25 cts.; lb. 75 cts.

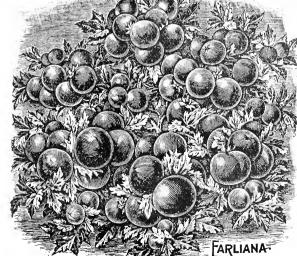

NEW DELICIOUS

IMPROVED HUBBARD

Improved Hubbard.

This is the old standard squash, now grown throughout the country. Flesh is deep golden-yellow and fine grained, and whether boiled, steamed or baked, it is always richly flavored, sweet and dry. The vines are strong, of luxuriant growth and very productive, yielding large heavy squashes weighing from 10 to 25 pounds each. The color of the rind varies somewhat, but the color and quality of the flesh is fixed and unchangeable—always a deep golden yellow or orange. If properly stored it will keep until spring. Pkt. 5 cts.; oz. 10 cts.; 1-4 lb. 25 cts.; lb. 80 cts.

Tomatoes.

Our packets of Tomatoes each contain seed enough to produce 600 plants.

Earliana. A perfect early Tomato, large in size, and beautiful in color, nearly seedless and very solid, a vigorous grower and prodigious bearer, yielding its splendid fruit until frost. Its solidity and fine quality are equal to the best late sorts. The plants are compact in growth and set fruits freely. Pkt. 5 cts.; oz. 30 cts.; 1-4 lb. 90 cts.

MAGNIFICENT

Magnificent. A TRULY MAGNIFICENT RED MAIN-CROP IT HAS BEEN TRIED IN VARIOUS CLIMATES AND DIF-FERENT SOILS AND ALWAYS CAME OUT SUCCESSFULLY. different from all other tematees in the following particulars--First, the plants root well from the very beginning of their growth. Second, as the result of this strong growth of root there is a large and vigorous growth of stalk to support the weight of the fruit. Third, as the result of this strong stalk the spreading branches produce a great abundance

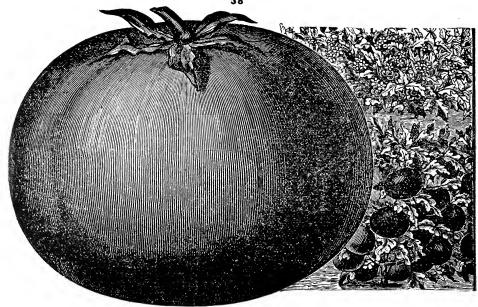

of fruit from each plant. Fourth, the fruits are large, solid and smooth, easily prepared for market on account of its perfection. Fifth, the plants are hardy, can be set out early and not be injured by cold if protected from frost. Sixth, the fruits cipen early and the later fruit on the vines is just as large and perfect as the first. Color is bright red; skin always smooth, free from cracks and Flesh is of exceptional fine flavor, Pkt. 10 cts.; oz. 30 cts.; 1 lb. \$1.00.

Golden Dwarf Champion.

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit well above the sol, its large fruit and beautiful color, and to the earliness with which it reaches maturity. Plants are bushy which it rea hes maturity. Plants are bushy and compact, with heavy dark-green, potato-leaf foliage. The tomatoes are are always smooth, round and solid, and of a beautiful lemon color.

Each plant produces a large number of fruits. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. Pkt. 5 cts.; oz. 25 cts.; ½ lb. 80 cts.

JUNG'S PRIZETAKER

A Grand New Tree Tomato. JUNG'S PRIZETAKER. EARLY. EXTRA LARGE FRUITS. ENORMOUS YIELDER. BRIGHT RED.

The best variety for the home garden. It is the largest fruited dwarf or tree tomato. The plants grow to a height of about two feet and are stiffly erect until they become OVERLOADED WITH FRUIT. The fruit is produced inclusters of three to five, and as the growth is close-jointed each plant produces a large number. The tomatoes are of large size, and are very smooth and solid. Fruits have a solid meaty center and no hard core and produce but very li tle seed. We consider PRIZETAKER invaluable for the home garden, market garden, or for shipping purposes. Pkt. 10 cts.; oz. 40 cts.; 1-4 lb. \$1.00.

Truckers Favorite.

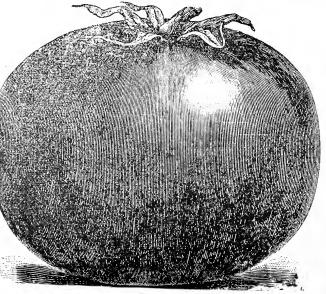

THE FINEST LARGE-FRUITED PURPLE TOMATO. Very uniform in size and shape, thick-meated and solid;

one of the largest tomatoes grown. The fruits are of a beautiful purplish-red or pink color. always smooth and fleshy. They hold their size to the very last picking and ripen well to the stem. Vines are of strong vigorous growth, ripening the first fruits early. The vines are not subject to blight or rust, and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable main-crop pink tomato Truckers Favorite can't be beat.

Pkt. 5 cts.; oz. 30 cts. 1-4 lb. 80 cts.

Matchless.

A FINE LARGE FRUITED
RED TOMATO. The vines
are strong growers, and produce immense crops of large
smooth juicy fruits. The
fruits are truly immense in size,
specimens having been grown
measuring five inches in diameter,
and the large size of the fruit is
maintained during the whole season: they are free from core, of a
rich cardinal-red color and free
from cracks and blemishes. The
flesh is very solid, the ripe fruits
will keep for a long time.

Mammoth Russian Sunflower.

Fairfield Special Mixed.

Our mixture combines the very best varieties of grasses suited for the purpose of making a lawn beautiful in appearance, durable and lasting, and which will stand the frosts of winter, and the hot sun of summer, showing a deep rich The seed used is PURE and HEAVY and is especially green at all seasons. This mixture weighs 25 to 27

Mammoth Russian.

Single heads measure twelve to twenty-two inches in diameter Single neads measure twelve to twenty-two inches in disineter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it, and attain a bright lustrous plumage and strong healthy condition better than on almost any other food. It is the best egg-producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Four quarts of seed will plant an acre. The seed is also recommended as an excellent food for horses. Oz. 5 cts.; ½ lb. 20 cts.; lb. 30 cts., postpaid. By freight or express: lb. 15 cts.; 10 lbs. \$1.00; 100 lbs. \$6.00.

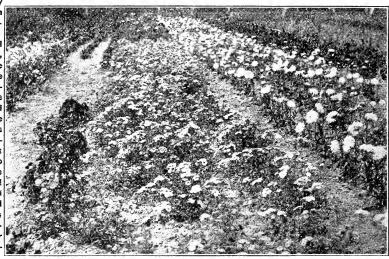

Jung's Unrivaled Flower Seeds.

The same great care and selection governing the growing of our Garden and Farm Seeds is exercised in the growing of our Flower Seeds. If our customers could only see the glorious beds of Asters, Salvias, Phlox, Sweet Peas and other flowers growing on the Fairfield Farm they would grow more flowers.

There are no more satisfactory flowers in the garden than those grown from

especially seed. the easily grown and brilliant flowering annuals.

The beautiful shrubs and lilacs. of course, have their place, but are far more expensive than a package of seed which will furnish a large number of plants with usually enough for one's garden and some to spare. While the old-fashioned flowers are still popular, new and improved varieties have been developed, with larger and finer soms.

FLOWERS GROWING FOR SEED AT FAIRFIELD SEED FARM

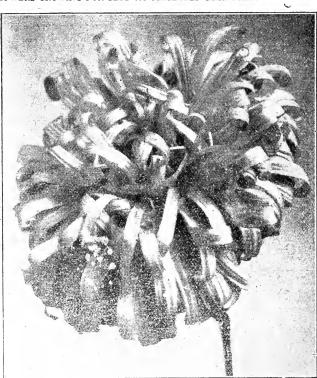

Jung's Superb Asters.

Asters are our great Specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. We are the largest growers of ASTER SEED in the NORTHWEST. other flower can approach the Aster in beauty, color, form, or profusion of bloom. They are very hardy, easily grown, and may be had in bloom from early summer until hard frosts. are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Jung's New Aster "FAIRFIELD."

We take pleasure in offering our customers this new Aster, which is in a class by itself. The flowers of this grand variety are immense, single flow ers measure six inches across; and being borne on long stiff stems the rival Chrysanthemums for bouquets.

A bed of these Asters looks like: snowdrift. The petals are very long and are curled and twisted to a remark able degree. Bushes are strong and healthy. White and Shell-Pink.
Each 10 cts. Peripkt.

JUNG'S FAIRFIELD ASTER

CREGO ASTER

Jung's American Beauty.

The petals of this grand new Aster are almost a half inch wide. It is almost identical in color to the popular American Beauty Rose, hence its name. The plants are strong growers, from 35, to 40 inches tall, well supplied with heavy foliage, and is a prolific bloomer. The immense fluffy flowers are borne on stemsfrom telyt to twelve blossoms, each measuring over four inches across. Pkt. 10 cts.

JUNG'S AMERICAM BEAUTY

Crego Aster.

A new variety. The plants are vigorous and productive of foom ten to fifteen strong flower stems, frequently two feet or more in length. The flowers are large and tull with the crowns well covered. The petals are ownedium width but very long, and curl across each other so fluffly as to enhance the beauty and attractiveness of the flower, and increast its value as a long keeping and good shipping variety. White and Shell-Pink. Each 10 cts per pkt. Two pkts. for 15 cts.

Violet King.

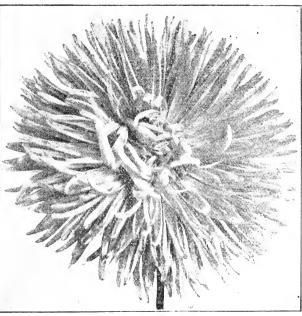

This is a popular variety, vigorous in growd with long stiff stems, and luxuriant foliage or richest green. In form the flower is entirely distinct; petals resemble the quilled varieties but are much larger and broader, those in the center being twisted, curled, and incurved completely covering the crown. The bloon is round, full, and very large, many of the flowers measuring from four to five inches across. Color is a soft voilet-lilac. Pkt. 10 c.

Rose King.

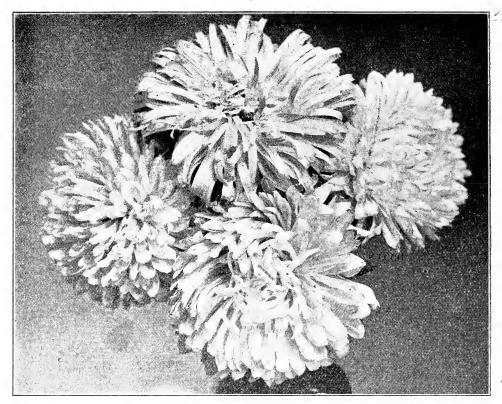

The same as Violet King except in color. It is vigorous in growth, with stems frequently two feet in length, flowers as, large as saucers, crowns completely covered, a good keeping variety and unsurpassed for cutting.

Petals are strong and stiff. Blooms from mid-

summer until frost. Pkt. 10 cts.

VIOLET KING

INVINCIBLE

MIKADO SHELL-FINK CHRYSANTHEMUM FLOWERED SUFERB LATE BRANCHING

Superb Late Branching Asters. After a number of years of careful selection where it is unexcelled. The plants form strong stocky bushes about two feet in height, bearing on long stiff stems their handsome flowers, which measure from four to five inches across. The petals are gracefully curved towards the center and do not have an exposed yellow center. Plants are of strong vigorous growth and yield a profusion of flowers from the middle of August until heavy frosts. White, Shell-Pink, Rose-Pink, Purple. Each 10 cts. per pkt. One pkt. each color 20 cts.

Invincible. The plants are of very healthy, robust, branching growth, about two feet high, producing, and exceedingly double to the very center, The flowers are the most beautifully formed of all large Asters. The petals are of thick durable substance, and in consequence the flowers last long in perfection. These Asters are wonderfully prolific and continuous bloomers from summer until checked by frost. When well grown the flowers measure from three and one-half to four inches across. White, Pink, Shell-Pink and Purple. Each 10 cts. per pkt. One pkt. each color 20 cts. Mixed colors 5 cts.

Mikado Shell-Pink.

Petals are narrow, very long and gracefully reflexed. The outer petals show to their full extent, while gradually towards the center fine color in is the most exquisite shade of pink.

In color in is the most exquisite shade of pink.

Carries a dozen long, strong, graceful stems, each crowned with flowers from four to six inches in diameter.

Blooms from the end of July until frost.

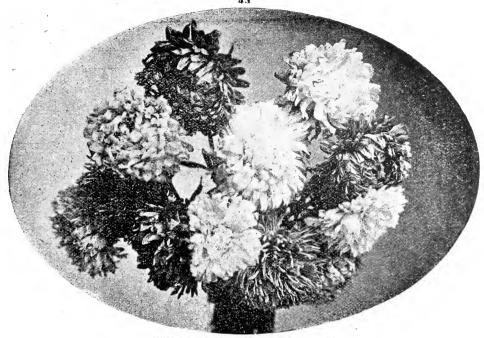

Pkt. 10 cts.

Chrysanthemum Flowered Aster.

This grand new Aster is in a class by itself, being formed altogether differenter name. Well grown flowers measure five inches across and are borne on long stems making them invaluable for cut flowers and bouquets.

Petals are long and twisted.
The color is a very delicate sea-shellpink. The plants are of strong growth and carry many blosoms. Fkt. 10 cts.

Giant Comet Asters. This is undoubtedly the finest strain of Chrysanthemum twenty inches and bear their large graceful flowers on stems from fifteen to eighteen inches long. The flowers are from four to five inches across, while the long petals are curled and twisted, forming perfect half-globes. The blooming season is most opportune, coming between the Extra Earlies and the Late Branching sorts, thus enabling the Aster growers to have a fine display from mid-summer until frost. White, Shell-Pink, Rose-Pink and Purple. Each 10 cts. per pkt. One pkt. each color for 20 cts. Mixed colors 5 cts.

JUNG'S INTERNATIONAL MIXED ASTERS

Jung's Innocence Aster. The earliest Aster in cultivation today. It is a few days earlier than Queen of the Earlies, while for beauty of flower it equals the later sorts. Instead of running to leaves the entire energy of the plant seems given to the production of 8 or ten giant fluffy flowers. The plants are of sturdy, branching habit, 15 to 18 inches tall, and bear their handsome, snow-white flowers on long stems, making it invaluable for bouquets. The flowers measure three to four inches across, which, with their long recurved retals give them a graceful appearance. Pkt. 10 cts.

Jung's Early Upright Aster.

The plants grow compactly, with long, erect flower stems, quite free from side shoots, and yield from to twelve large flowers.

The blooms of this variety are considerably above the average in size, and have a compact, ball-shaped appearance.

The crowns, or centers, are completely covered.

Petals are of medium eight to twelve large nowers.

The chooms of this variety are considerably above the average in size, and make solid, compact, ball-shaped appearance.

The crowns, or centers, are completely covered.

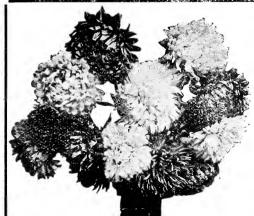

They start to bloom early and continue until well into the season.

White and Lavender-Pink, Each 10 cts. per pkt. One pkt. each color 15 cts.

Jung's International Mixed Asters. The finest mixture of ASTERS ever offered by any seedsmen.

This superb mixture is composed of the very best varieties and contains practically every shade known in Asters, such as, pure white, white changing to rose, shell-pink, rose-pink, red, carmine, violet, crimson and purple. Grace and brilliancy are the char-

Grace and brilliancy are the characteristics of this pretty annual.

The beautiful flowers with their deep broad petals rise from a cloud of fine feathery foliage. By starting the seed of this variety early they will commence to blossom in June and continue to blosom until cut down by frost. They are of compact bushy growth, about four feet high, with flowers fully as large as the old variety. The flowers are of various shades, ranging pure white to purplish crimson. Both foliage and flowers are unsurpassed for bouquets and vases. They are for bouquets and nowers are unsurpassed for bouquets and wases. They are easily raised and make a grand display. play. 11 10 Pkt. 5 cts. It is admired by all.

DIANTHUS. Fairfield

Finest Mixed.

These hardy annuals may be ranked among the These hardy annuals may be ranked among the fairest germs of our flowers, as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly, and make ornamental masses of growth.

They may be sown in the open ground when danger from frost is over, and in a few weeks they are masses of bloom, continuing so until frost. Our mixture includes the best single and double sorts.

MORNING GLORY. Imperial Japanese.

The robust vines attain a height of from fifteen to twenty feet. The foliage is luxuriant, distinct and varied, green, silvery and yellow leaves; many are mottled light and dark green, white and gray. Their charm lies in the entrancing beauty and large size of the flowers; they measure from three to four inches across.

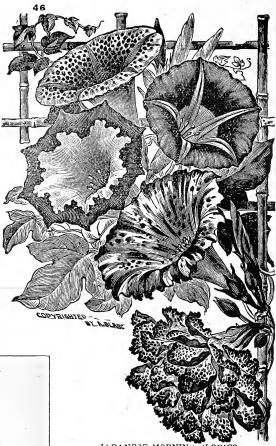

The colors of the flowers, shadings and markings are limitless. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and darnet; daintiest him to purple; snow,

Ine colors of the nowers, snadings and markings are limitless. Some flowers are of deep, rich, velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver-gray. Some are striped, blotched and spotted; others have magnificent edges and throats. They are easy to grow and quick to come into bloom. Pkt. 5 cts.

MARIGOLD. Lemon-Ball.

This extremely showy annual has become a great favorite everywhere on account of its very easy culture and most beautiful flowers, which are quite unique in color and immediately attract attention both in the garden and in bouquets.

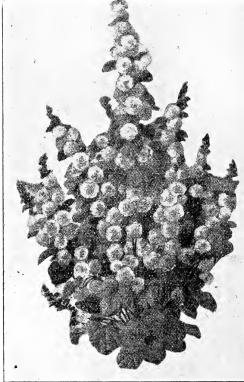

The hardy plants, of neat branching habit, grow from fifteen to twenty inches high and are exceedingly profuse in flowering. The extra large, roand, double flowers are of a clear canary-yellow. The petals are heavily rolled and are crowded so closely together as to appear lacinated. Pkt. 5 cts.

JAPANESE MORNING GLORIES Everblooming Annual HoLLYHOCKS.

Every garden may now be glorified with stately Hollyhocks grown as easily and flowering as soon from seed as any garden annual. The plants are of healthy and vigorous growth and naturally branching in habit, the center spike attaining a height of from five to seven feet.

The diversity of forms and colors among the flowers affords many delightful surprises. Some plants produce densely double flowers without guards, others with guard petals; there are semidoubles, then single sorts with double centers, others flounced, and all lowers are usually very large, some measusing five In colors there is also great variety. inches across. some richly brilliant, others dainty and exquisite, ranging from black, maroon, wine-red to orange, pink The flower buds are borne in clusters which vary in maturity from from the developing bud to the expanding flower; which accounts for the remarkably long blooming period. They flower profusely until killed by frost. Pkt. 5 cts.

BRILLIAN'I BEAUTIES

Tom Thumb Mixed NASTURTIUM.

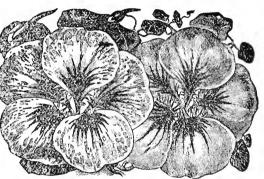

This mixture is composed of choice flowering varieties and is properly blended. They are of dwarf compact rounded growth, about nine inches in height and slightly greater in diameter.

They resist heat and drought, grow vigorously and flower freely all summer and fall. Flowers are of many different colors, and are shown to great advantage among the richly variegated foliage. For summer flower-beds nothing can surpass them. Seed sown in the open ground in the spring will produce plants that commence blooming during early summer and continue until frost.

They are of the easiest culture and require very little attention. Pkt. 5 cts.; oz. 10 cts.

DWARF NASTURTIUMS. Brilliant Beauties.

The plants are of strong vigorous growth, erect habit and beautifully rounded form. The leaves on different plants range from light green to a rich purplish tint. They are of quick growth. begin to bloom early in the summer and continue to flower profusely until tilled by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large It makes an excellent variety for bedding. Pkt. 5 cts.; oz. 15 cta.

TOM THUMB MIXED

Tall or Climbing Nasturtiums.

GIANT FLOWERED MIXED.

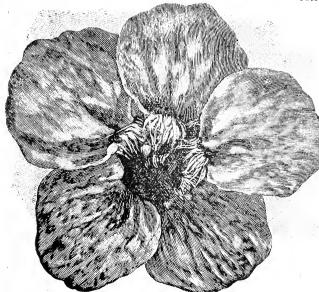

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, brush or rockery planting, nor surpass them in freedom and profusion of bloom. They throw out running shoots that can be trained upon strings or wires, or can readily be made to climb ordinary fences or wire netting. On good soil they will grow eight feet high. Single flowers measure four inches across.

Flowers are of various shades. Pkt. 5 cts.; oz. 15 cts.

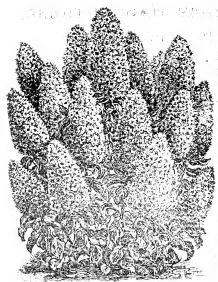

NICOTIANA. Affinis.

The plants of this strain are quite compact, averaging 2 feet in height, pyramidal in form and bloom profusely. Flowers are pure white and are borne on long terminal tubes.

Plants are highly ornamental and have handsome foliage. The flowers open in the morning and evening. Very fragrant. Pkt. 5 cts.

GIANT FLOWERED TALL NASTURTIUM

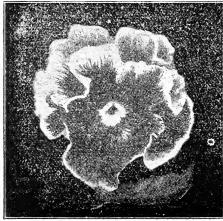

BISMARK MIGNONETTE

MIGNONETTE.

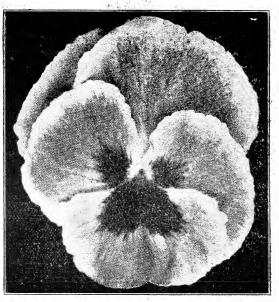

Bismark. One of the finest, being of strong growth, healthy and deep-rooting. The average spikes of flowers are immense, measuring 6 to 8 inches long by 2½ inches in diameter, and are compactly filled with giant florets, measuring one-half inch across and packed full, even in the center, with anthers. The rolor of the bright red florets is strengthened on account of the density of the florets and spikes, thus presenting almost solid columns of brilliant red, effectively contrasted against the healthy, bright green foliage. The fragrance is rich and powerful. Pkt. 5 cts.

Special Mixed MIGNONETTE.

Contains seed of all the standard sorts and latest introductions, there being red, yellow and white colors. Pkt. 5 cts.

HERCULES GIANT 1 natural size

JUNG'S GIANT FANCY PANSY

PANSIES.

Jung's Giant Fancy Mixed.

This "Fancy Mixture" contains seed of the largest, richest and handsomest pansies known to the horticultural world.

The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long stiff stems well above the heavy deep-green foliage.

The colors are rich and varied, such as

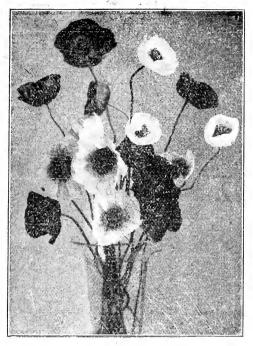

white, cream, yellow, deep-orange, mahogany, claret, rose, reddish-bronze, lavender and light blue, each petal is distinctly blotched. The compact, rounded plants are of sturdy habit and so deep rooted that they bear gigantic flowers profusely and continuously. The petals are of thick heavy substance, large size and various shapes. Pkt. 15 cts.

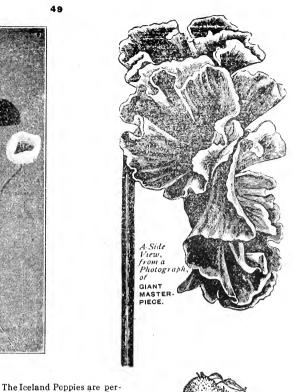

Giant Masterpiece. This giant pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character: the petals being of a rich velvety substance and heavily ruffled. The colors are mainly dark rich shades bordered, blotched or marked in ray-like veinings. The mammoth size, richness and beauty of colorings, combined with the distinctly frilled or ruffled character of the petals, makes the Masterpiece one of the most interesting novelties in pansies ever developed. Pkt. 10 cts. See cut on page 49.

Hercules Giant. The flowers are of thick heavy texture.

The colorings and markings are widely varied, some flowers being nearly self-colored in the richest tints of purple-carmine and brown, relieved by delicate shadings of a brighter or contrasting color; others are boldly margined with white, cream, golden-yellow or soft rose; while still others have silvery grounds heavily blotched at the base of each petal with a dark rich shade. Plants are of sturdy stocky growth. Pkt. 10 cts.

LARGE FLOWERING MIXED. This mixture is composed of the finest large flowering varieties and contains some of the richest colors. The plants make strong growth and bloom freely. Pkt. 5 cts.

ICELAND POPPIES

Iceland POPPIES.

season from seed. The fragrant, elegant, ernials, blooming the first produced continually from June to October. They are of graceful neat habit, with bright green fern-like foliage, formed in tufts, from which issue slender stalks, about twelve inches long, bearing their brilliant flowers in encless profusion. Their long stems and lasting qualities make them invaluable for cut flowers. The flowers last fully a week if cut as soon as open, Pkt. 5 c.

Large Flowering Mixed. Petunia.

No annual flower is more widely used than the petunia. bloom early, and lasts the whole season, until killed by frost. Most of the flowers are exquisitely ruffled or fringed on the edges and are of enormous size, but their great merits

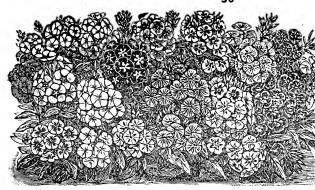

lie in the tremendous variety of colors, markings, blotches and stripings, in the most grotesque and beautiful combinations. Some colors are rich and gorgeous, others are lovely delicate shades. Pkt. 10 cts.

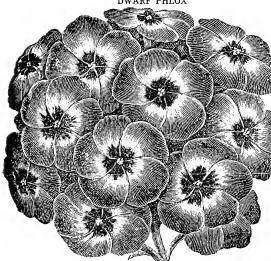

PELUNIA

SUNFLOWER SUNFLOWER. Chrysanthemum Flowered.

it is rightfully named the people's flower. Our
bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is
continuous from the end of July until frost
Any good garden soil will grow Gladiolus.
Cultural instructions with each order.

America.

A beautiful shell-pink. By far the most vigorous and easily grown Gladiolus known. Very strong and healthy, with luxuriant dark green foliage and a freedom of growth and flowering surpassing all others. Spikes two to three feet long, with a great number of large spreading blossoms all facing one way and showing an exquisite shade of glistening soft lavender pink. Single flowers measure four inches across and as many as six flowers are open at one time on a single stem. As a cut flower it is perfectly immense, lasting in water over a week. 10 cts. each; \$1.00 a dozen.

AMERICA

GOLDEN QUEEN

American Hybrids.

The gorgeous colorings and gay markings of this mixture are simply grand. The large flowers are very brilliant and effective, of perfect form and heavy substance. Composed of the choicest named varieties including the finest, showy, large flowering seedlings and latest introductions. All are of strong, healthy, upright growth and flowers are of immense size. 4 cts. each; 35 cts. per dozen; 33.25 per 100.

Special Gladiolus Offer.

One good sized bulb of each of the following seven excellent varieties for only 35 cts., postpaid.

Golden Queen America Augusta George Paul Brenchleyensis Mrs. Frances King American Hybrids

Golden Queen.

A new variety of great beauty. It is of a rich lemon yellow color, having a crimson spot on the two lower petals, forming one of the most handsome Gladiolus known.

Flowers are of truly gigantic size and a large number of them are open at a time. The plants are strong and healthy, of the branching type, and grow about two and one-half feet high. 10 cts. each: \$1.00 per dozen.

Augusta.

A splendid new Gladiolus. Flowers are of perfect:
paper-white, with a slight pink shade on lower half of the
petal. The spike is set solid with perfect flowers from
top to bottom. Plants are strong and healthy.
5 cts. each; 45 cts. per dozen.

George Paul.

A superb variety. Flowers are a deep rich crimson. slightly stained with yellow, spotted with crimson. Flowers sometimes measure five inches across. A very strong and vigorous grower. 10 cts. each; \$1.00 per dozen.

Brenchleyensis.

This is an old standard sort, and one of the best for bedding where one shade of good scarlet is desired. Flowers are pleasing and attractive and grow in profusion on strong solid spikes which are covered with blossoms from top tobottom. 5 cts. each; 45 cts. per dozen.

Mrs. Frances King.

A most striking and popular variety. Of exceptional value for cut flowers. Color is a very pleasant light scarlet. The individual thowers are five inches in diameter and sometimes larger. Spikes produce twelve to fifteen flowers and grow four feet high. It is exceptiomally healthy and its flowering is continuous. 10 cts. each; \$1.00 per doz.

AMERICAN HYBRIDS

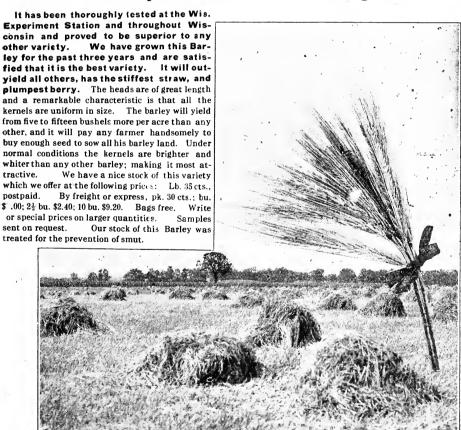

JUNG'S

Northern Grown Farm Seeds.

The Farm Seeds which we offer are uniformly of the VERY BEST grade, while the EARLINESS and TREMENDOUS PRODUCTIVENESS of NORTHERN GROWN SEED needs no comment. The greater part of these seeds were grown on our Fairfield Seed Farm. They were grown especially for seed, are thoroughly recleaned and FREE FROM FOUL WEEDS. This ought to appeal to every farmer who wishes to keep his farm free from foul weeds. BAGS FREE, remember this when comparing prices. If you want any seed not listed in this catalog write us and we will be glad to quote you special prices.

WISCONSIN PEDIGREE BARLEY. The Champion Barley of the World.

This is the Barley that wins "First" at all grain shows.

A FIELD OF WIS. PEDIGREE BARLEY AT FAIRFIELD

A BUNDLE OF WISCONSIN PEDIGREE OATS AS GROWN AT FAIRFIELD

WISCONSIN PEDIGREE OATS.

The Very Best Oat In America Today. Long Stiff

Straw. Immense Heads. Always Two Fully Developed

Kernels To A Pod. This new Oats was developed at the

Wis. Agr. Experiment Station at Madison, Wis. and has been thoroughly tested out throughout Wisconsin the past season. Wherever it was tried it proved itself superior to all other varieties. It was also carefully tested out at our Fairfield Farm and we can truthfully say that it is WAY AHEAD OF ANY VARIETY WE HAVE EVER TRIED. Planted along side of other varieties it was six inches taller and while other varieties lodged badly it stood up straight. One marked characteristic was the fact that Wisconsin Pedigree produced two fully developed kernels to a pod while other varieties also had two kernels but in many cases one would be only a hull. This may not seem important but it is right here where the yield is increased and you will not, therefore, make a mistake in sowing these oats. The kernel is large, white and has a very thin hull.

We are not going to make claims that these oats will yield from 100 to 200 bushels per acre as is the practice of some unscrupolous dealers but we do claim that if they are tested cut with any other varieties they will come out ahe ad. It ripens medium early. Our stock is limited and we would advise you to order early.

Lb. 35 cts., postpaid. By freight or express: Pk. 60 cts.; bu. \$1.50; 2½ bu. \$3.50.

Swedish Select Oats.

NEXT TO WIS. PED. THIS IS THE FINEST, STRONGEST, HEAVIEST, LARGEST YIELDING, MOST PLUMP WHITE OAT EVER GROWN IN AMERICA. Prof. R. A. Moore, Madison, Wis., who for four years tested it with 36 other varieties pronounced it THE MOST SATISFACTORY OF ALL, ranking first in weight, stiffness of straw and thin hulling qualities. The great root development is one of the chief charactesistics of the Swedish Oats which enables it to withstand drought better than any other variety. straw is coarse and is noted for its power to withstand lodglt is early; the kernels are large and thick, white, plump and heavy, weighing from 36 to 40 pounds per measured bushel, with an exceptionally thin hull. This variety seems to be well adapted to high land, the best results being obtained on clay loam. Lb. 25 cts., postpaid. By freight or express: Pk. 25 cts.; bu. 80 cts.; 2½ bu. \$1.85 10 bu. \$7.00. Write for prices on larger quantities. Bags free.

Samples sent on request.

JUNG'S Northern Grown SEED CORN.

Our entire stock of Seed Corn, with the exception of Early Longfellow Flint, was grown on the Fairfield Seed Farm and nearby localities and a finer bred lot of seed corn cannot be found. It is all carefully selected, fire-dried, of high germination and guaranteed to grow. We have a large stock but good seed corn is scarce and in great demand this year so we will advise our friends and customers to

Early Longfellow Flint Corn.

The most popular of all flint varieties. It is a beautiful with straight slender ears twelve to fifteen inches long.

and wide, cob very small. Ripens in 75 to 80 days and is very prolific. The stalks grow

A TYPICAL EAR OF CLARK'S YELLOW DENT AS GROWN AT FAIRFIELD FARM

WIS. NO. 8. EARLY YELLOW DENT AS GROWN AT FAIRFIELD FARM

Wisconsin No. 8. Early Yellow Dent.

This is the corn for Northern Wisconsin and similar latitudes. manding points for northern planting are: its EARLINESS, its ENORMOUS PRODUCTIVENESS, its ADAPTABILITY TO A GREAT VARIETY OF SOILS AND CLIMATES. Originally from Minnesota where it is known as Minnesota No. 13, Wis. No. 8 has been developed at the Wis. Experiment Station and is an improvement on the Minnesota strain. By careful selection and breeding the kernels have been materially lengthened without sacrificing the extreme earliness. matures on the shores of Lake Superior and will ripen anywhere in Wisconsin. to eight inches in length, with long kernels, very uniform in type and color, with remarkably well filled tips. grows a medium-sized stalk with good leaf development and with practically no barren stalks. It will thoroughly mature in about 90 days on favorable soil and a good location and will yield from 40 to 60 bushele per acre, producing often two ears to a stalk. This corn will be especially valuable to use even down in the corn-belt where for any reason late planting becomes necessary. Prices on the ear: ½ bu. \$1.90, bu., 70 lbs., \$3.75. Crates free. Shelled, Pk. 90 cts.; bu. \$3,25. Sample ear by mail 25 cts., postpaid.

Golden Glow. Wisconsin No. 12.

THE NEW EARLY YELLOW DENT FOR CENTRAL AND NORTHERN WISCONSIN AND SIM-ILAR LATITUDES. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a profitable variety for general cul-It matures as far north as north central Wisconsin and yields big crops of large-sized ears.

This is strictly a Wisconsin bred variety and was brought out by Prof. R. A. Moore, his idea being to produce a early variety with large ears and deep kernels and he has succeeded well.

GOLDEN GLOW is a pure golden yellow corn, most attractive in color and appearance. are fairly large, averaging about 8 inches in length, symmetrical in share, slightly tapering at the outer ends and very free from a tendency to flinfiness; stalks are large and strong with abundant foliage which makes it a very desirable fodder or silo variety. It is a heavy yielder. Prices--on the ear: 1-2 bu. \$2.00; bu., 70 lbs., \$3.75. Crates free. Shelled: Pk. 90 cts.; bu. \$3.25.

Sample ear by mail 25 cts., postpaid.

Whenever this Trade Mark appears on a package of seeds wit is a guarantee that the seeds contained therein are unexcelled for QUALITY. It appears on every shipment we send out.

SILVER KING WIS. NO 7 AS GROWN AT FAIRFIELD FARM

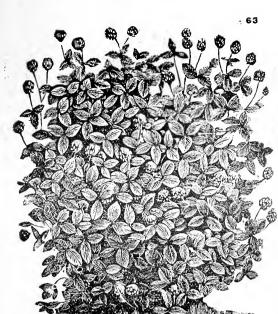

Silver King. Wisconsin No. 7.

The Leading Variety Of Corn In Wisconsin Today.

Silver King leads the list today of all-round good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for northern lowa, southern Minnesota, South Dakota, northern Illinois, Ohio and Indiana as for Wisconsin. This corn originated in northern lowa and was brought to Wisconstn by Prof. Moore who has developed and improved it and sent it out over the state through the members of the Wisconsin Experiment Association.

Ears are just the right length, averaging eight to nine inches, always filled out clear to the tips, and are very uniform in size and type. The corn is pure snow-white in color with good long kernels set compactly in straight rows.

It is a strong grower, early enough to mature as far north as south central Wisconsin, and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage making it a very desirable fodder or silo variety. It has a decided double-ear characteristic, one reason for its large yield records. We have a large well bred stock which we offer at the following prices: On the ear: 1-2 bu. \$2.00; bu., 70 lbs., \$3.75; 5 bus. at \$3.70.; crates free. Shelled: Pk. 90 cts.; 1-2 bu. \$1.75; bu. \$3.25; 2 1-2 bu. \$7.90. Sample ear by mail 25 cts., postpaid.

RED OR MEDIUM CLOVER

Jung's Fancy Recleaned **GRASS** and CLOVER Seed.

Nothing is more important to the farmer than that the seed he sows be PURE and free from FOUL WEEDS: the seed should also be plump and of strong vitality to insure a good stand.

We handle only ONE GRADE of these seeds and that is our famous

FAIRFIELD BRAND

which is pure, well cleaned, of high germination and free from weeds. You are taking no risk when placing your orders with We always aim to give honest value for every dollar received or your money BAGS FREE remember this when Samples of all Farm comparing prices. Seeds free.

Wisconsin Grown Red or Medium Clover.

We have an unusually fine stock of Medium Clover Seed. It is bright, pure, of high germination and free from foul weeds. This is the stand-ard Red Clover and a dependable allround variety for farmers and stock-

men. It makes two crops a year.
The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed, or plowed under to add fertility to the soil. Clover greatly adds to the fertility of the land on which it is grown.

It does not exhaust the soil but enriches it. It pays always to buy the best grade of Clover seed that can be obtained. Even though the first cost is much more than the cheaper grade, it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it, but from the fact that one's land becomes infected with weed seeds which decrease the value of the land on which Sow Clover Seed Lb. 35 cts.; postthey are growing. and plenty of it. Lb. 35 cts.; post-paid. Not prepaid: lb. 30 cts.; pk. \$3.25; bu. \$12.75. Price subject to Price subject to Bags free. market changes.

Wisconsin Grown TIMOTHY.

As a crop for hay Timothy is probably unsurpassed by any other grass. It is greatly relished by all kinds of stock, especially horses. It yie It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. tor a permanent pasture as it will run out in the course of a few years. In elargest crops of hay are raised on rich land. It is not suited for light, sandy soil so well as some other grasses. The most important point in the grow-of Timothy is the selection of GOOD SEED. POOR SEED besides containing weed seed WILL NOT ALL GROW. We have a choice stock of Pure, Heavy, Plump, Well-cleared, Home Grown Seed Lb. 20 cts., postpaid. By freight or express: Pk. 70 cts.; bu. \$2.75. Price subject to change. Write for special prices

if wanted in larger quantities.

Fancy RED TOP.

A suitable grass for moist, rich soils, where it theires most luxuriantly. It is a good variety to sow with Timothy or Clover for meadows or pasture and is more permanent than either of the other two. It should be 'ed close, as if is allowed to grow up to seed the cartle dislike it. On good soil it grows about three feet high. It has been grown su cessfully even on alkali soil where all other grasses failed. Lb. 30 cts. postpaid. Not prepaid: Lb. 20 cts.; 10 lbs. \$1.60; 50 lbs. \$7.50. Price subject to change.

Kentucky Blue Grass.

Also known as June Grass. Well suited for pasture and lawns. Sow in fall or spring at rete of 30 to 40 pounds per acre. Lb. 30 postpaid. By freight or express: Lb. 22 cts.; 10 lbs. \$1.90;50 lbs. postpaid. \$9 10 Price subject to change.

Orchard Grass.

Extremely hardy and widely known. One of the earliest to start in the spring; grows rapidly; furnishes an abundance of pasture all season. Withstands droughts, will grow in the shade. Sow 20 to 30 pounds to the acre. Lb 30 cts., postpaid. By freight or express: Lb. 22 cts.; 10 lbs.\$1.90; 50 lbs. \$9 10. Price subject to change.

If any seeds are wanted in larger quantities write us and we will be glad to quote you special price. Samples of Farm, Clover and Grass Seed sent free on request. Bags free.

Dwarf Essex RAPE.

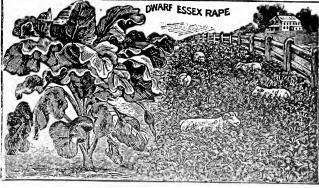

The greatest of all forage plants. It is ideal for sheep pasture, and is now also large-

pasture, and is now also large-ly sown for cattle and hogs. It furnishes an immense a mount of green feed, and its nutritive value is nearly twice that of clover. Under favorable circumstances it is ready

able circumstances it is ready for pasturage in six weeks from the time of sowing.

Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Some firms ask less for their Rape seed than we do, but we handle only THE VERY BEST SEED which is always over the sixty.

only THE VERY BEST SEED, which is always sure to give satisfaction. Lb. 25 cts., postpald. By freight or express: Lb. 15 cts.; 5 lbs. 50 cts.; 25 lbs. \$2.20, 100 lbs. \$8.00.

FIELD PEAS. White Canada.

This is a standard variety of Field Peas and needs no special description. This variety is extensively grown in Canada, Wisconsin and other pea growing sections, and has a large sale. They grow from three to four feet high and are very productive. Excellent for hog pasture or when fed green to milch cows. Pk. 75 cts.; bu. \$2.75. Write for prices if wanted in larger quantities. Samples free.

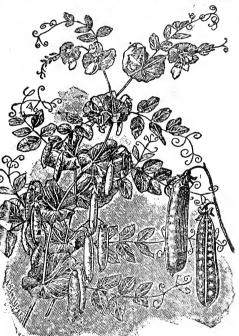

White Kaffir Corn.

An excellent fodder corn. It grows five to six feet tall, with a straight upright growth and numerous broad leaves. The stalks are brittle and juicy, not hardening like other varieties of sorghum.

WHITE KAFFIR CORN

It makes excellent fodder, either green or dry, which is highly relished by all kinds of stock. The seed crop is also heavy, sometimes 50 to 60 bu. peracre. Can either

be sown Five to ten pounds will sow an acre indrills. broadcast or in drills. Lb 20 cts.; 100 lbs. \$2.60. Price subject to change. Samples free.

CANADA FIELD PEAS

SOY BEANS.

The Soy Beans have attracted much attention in recent years on account of their great value as a feed, being much richer in protein than flaxser d. oilmeal, bran or oats, and can be used to balance a feed ration to good advantage. By its use a dairyman can make a combination that is wholesome, economical and a completely balanced ration for milch cows. They also equal or surpass clover as a soil enricher, gathmiich cows. They also equal or surpass clover as a soil enricher, gathering nitrogen from the air. It is also used for ensilage, clover crop or fed in matured state. Sow just after corn planting, when the ground is warm, in drills 30 inches apart and three or four inches apart in the drill. From one to two pecks will seed an acre. Choice Northern Grown. Qt. 35 cts., postpaid. Not prepaid: Qt. 20 cts.; pk. 90 cts.; bu. \$3.50. Write for prices if wanted in larger quantities.

German Millet.

In the North Millet is grown almost altogether for hay, and for that purpose Southern grown seed is much the best

It grows taller and finer than that from Northern seed and that means more and better hay. German Millet is very sweet, palatable, and when fed to dairy cows produces a large amount of milk. On good rich soil it grows 4 to 5 feet high. It is very tender when cut at the right stage, which is when it is in full bloom. We offer genuine Southern Grown Seed. Lb. 20 cts., postpaid. Not prepaid: pk. 40 c.; bu. \$1.50. Write for prices on larger quantities.

Japanese Millet.

Japanese Millet is one of the most remarkable forage plants we have; remarkable for its marvelous luxuriant growth, often growing six feet tall; remarkable for the immense amount of hay it produces from each acre, and remarkable for its feeding value. It is adapted to all cli-

mates; does well on low ground; makes EARLY AMBER Comore hay than any other Millet, and requires less seed per acre. EARLY AMBER CANE in May for best results, 15 to 20 pounds per acre.
cut just before it heads out. Lb. 20 cts, postpaid. If desired for hay, Not prepaid: pk. Samples sent on request. 35 cts.; bu., 40 lbs.. \$1 25.

Early Amber Cane.

For Fodder—One of the leading fodder plants. It can be easily grown on any good corn ground, is sweet and tender and greedily eaten by horses, cattle and hogs. It is excellent for pasture; when grazed For Fodder-One of the leading fodder plants. grown on any good come ground, is sweet and the same as corn.

It is excellent for pasture; when grazed down it will mickly spring up again, thus a large amount of pasture may be obtained when other forage is scarce.

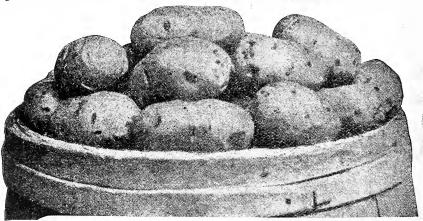

Sow any time from May to July, 12 to 15 pounds per acre in rows, and cultivate the same as corn.

bu. \$1 50.

We do not ship NOTICE. potato orders until danger from freezing is past, which is generally about April 1.

We will ship orders before that sate if requested but it will be at the buyers risk

EARLY ACME

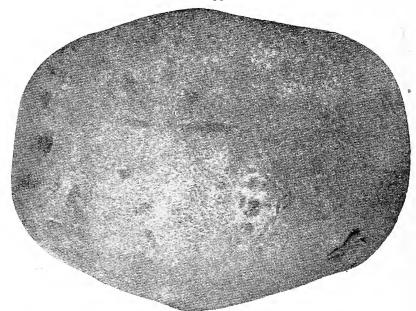

HARVEST QUEEN,-Reproduced from a photograph.

A Great Main Crop Potato--HARVEST QUEEN.

Here is a potato that is sure to become famous. A grand heavy yielding main or population of fine quality. The vines are very vigorous and resist disease better than most other varieties. Although it makes a heavy growth of vine it is not a late potato, it comes between the Earlies and Rurals and is, therefore, a better variety to plant as Rurals often fail to ripen before frost. It is a remarkable yielder having produced as high as 300 bushels of first-class tubers to the acre.

The shape is well shown in the illustration, and the shape is well shown in the illustration, and the product of the shape is well shown in the illustration. A grand heavy yielding main orop variety of we will add that it is one of the handsomest potatoes we have ever seen. For quality it is unexcelled as it is always dry, mealy and fine-grained, whether baked or boiled. Our stock is extra fine, being clean and free from disease. Order direct from us as we control the entire stock. Lb. 25 cts., postpaid. Not prepaid: Pk. 50 cts.; bu. \$1.50.

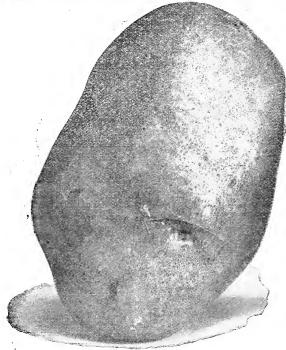

SNOWFLAKE JUNIOR

Snowflake Junior. The "Quality" Potato.

Resembles the old Snowflake in appearance and in cooking qualities. It is, however, much more prolific and has the further merit of being the nearest to BUG PROOF of any potato we have ever known, the bugs only attacking it after all other varieties in sight have been disposed of.

As an all-round family or market potato, we

HARVEST KING

potato we have ever known, the bugs only atAs an all-round family or market potato, we
consider Snowflak Junior perfect. It is handsome in appearance, grows to a large size,
clear white, cooks evenly and mealy. The
vines are remarkably strong, growing upright and are dark green in color, Order
early. Lb. 25 cts., postpaid. By freight or
express: Pk. 40 cts.; bu. \$1.25.

Harvest King.

A MONEY MAKER MAIN CROP POTATO.

We take pleasure in offering our customers this grand Potato, and are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth, and great productiveness. It has proved itself to be of great value on account of its tremendous yield together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound, white tubers which are of excellent quality for cooking or baking. Harvest King will bring the highest prices on all markets. Lb. 25 cts., postpaid. By freight or express: Pk. 40 cts.; bu. \$1.25. Sacks free.

Jung's Special POTATO OFFER.

One peck of each Early Ohio, Harvest Queen and Harvest King for \$1.20.

One bushel of each Early Ohio, Harvest Queen and Harvest King for \$4.00.

If sold out may we substitute? If so then please state second choice.

FAIRFIELD SEED FARM

RANDOLPH,
WISCONSIN.

Jung's Farm Seeds Are Free From Foul Weeds.

Jung's Fairfield Specialtics offered on inside front cover are a bargain.

Jung's Northern Grown Seed
Potatoes will yield Bumper
Crops. Try them.

Our "Fairfield Brand"

Timothy, Alsike and Medium Clover

are Wisconsin Grown and for Quality unexcelled.

We are Seed Growers as well as Dealers.

Planet Jr. Combined Hill and Drill Seeder, Wheel Hoe, Cultivator and Plow.

A good seeder is one of the most important of garden and farm implements; with it the seeding may be done in one-fourth of the time required by hand and be done far better, producing a more even crop and with a great saving of seed; with the "hill droppers" there is also a droppers" there is also a great additional saving of labor in hoeing and thinning.

1117 32 200 60

It will sow all garden seeds in continuous rows with great uniformity and also drop with accuracy in hills 4, 6, 8, 12 or 24 inches apart. It will open the furrow, drop the seed, cover and roll it and mark the next row at one operation and as fast as a man can walk The flow of seed is automatically stopped

seed is automatically stopped PLANET JUNION INC. 4 THE Seeders by raising the handles, and started by lowering them and starting the tool. The Seeders by raising the handles, and started by lowering them and starting the tool. The new Planet Jr. Hill

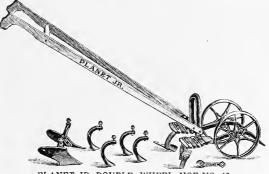

are light in operation, strong, simple and do not get out of order. The new Planet Jr. Hill and Drill Seeders are the best hand power seed planters in the world.

Price. Complete, including one pair of 4 1-2 inch hoes, three cultivator teethone garden plow, one leaf guard. Weight 53 lbs. Holds 2 1-2 quarts. \$11.00.

As a Seeder only, \$9.00.

Planet Jr. Double Wheel Hoe.

Wheel Hoes with other attachments for cultivating, hilling, furrowing, covering, etc., are among covering, etc., are among the great labor-savers of the age. They not only make the care of all rowed crops a pleasure but also enable a man to care for five times the area that can be done by using the hand hoe. They are built substantially for all-day work by an able-bodied man, yet they are adapted to the contraction. to the strength o' a boy or woman The Double Wheel hoes while they work equally well between two rows of plants are especially adapted for straddling one working close up to both sides of the plants, un-

PLANET JR. DOUBLE WHEEL HOE NO. 12 til the plants are 20 inches high. This tool is very strong and simple; the frame is made of pressed steel which makes it almost indestructible. Weight, packed, 31 pounds.

Price, Complete, including one pair of 6 inch hoes, two pair of hollow steel cultivator teeth, one pair of plows, one pair of leaf lifters, \$7.00.

Planet Jr No. 13 Double Wheel Hoe made same as the above but with only the

hoe attachments, \$4.75. Planet Jr. tools are without a rival. They are used at our Fairfield Seed Farm

in preference to other makes. We can supply yon with any Planet Jr. machine Write us for a Planet Jr. catalog if interested.

HAVE YOUR FRIENDS ORDER WITH YOU.

YOU WILL BE DOING THEM A SPECIAL FAVOR BY GET-TING THEM THE BEST SEEDS AT A REASONABLE PRICE.
